

**Silt/Super Silt Fence Identifier (Name/Number):** .....

Silt Fence/Super Silt Fence As Built Checklist		
	Actual	Design
Contributing catchment area (m <sup>2</sup> )		
Contributing catchment slope length (m)		
Contributing catchment slope (%)		
Longitudinal slope of silt fence (%)		
Space and length of returns		
Space between support posts		
Support wire installed		
Trenched in 200mm		
Height (mm)		
Method of sealing joints		
Sheet flow only		

*continues overleaf*

### Additional Super Silt Fence Requirements

Chain mesh/netting backing	
Double layer of fabric	
Council approved variations	

Please sign below to confirm that the as-built information in this sheet and the accompanying completed as-built diagram is accurate and the device identified on this sheet has been constructed in accordance with the Horizons Regional Council approved Erosion & Sediment Control Plan for the site and the "Erosion and Sediment Control Guidelines for Soil Disturbing Activities", January 2009 document or Horizons Regional Council approved variations.

Suitably qualified person (name and company):

Signed and dated:

Please provide surveyed drawings of as-builts, which include all of the above details along with this certification sheet. An example of a suitable silt fence as-built is attached.

Note: As-builts are not approved by Horizons Regional Council. Responsibility for construction of the structures and accuracy of the as-builts rests with the certifying agent. This list is not exhaustive and should be used to highlight some key "Erosion and Sediment Control Guidelines for Soil Disturbing Activities" requirements.
