4 Te Ao Māori¹ – Resource Management Issues of Significance to Hapū and Iwi

Te Ao Māori – Ngā Take Whakahaere Rauemi – Māori

4.1 Scope and Background

Te Hōkai, Te Takenga Mai

This chapter identifies the resource management issues of significance to hapū and iwi of the Manawatū-Whanganui Region (in accordance with s 62(1)(b) RMA), and sets out how these issues are addressed. It acts as a central point of reference for hapū and iwi resource management issues and sets the scene for examining Māori concepts and expressions within modern resource management practice.

E tautuhī ana tēnei Wāhanga i ngā take nui o te whakahaere rauemi ki ngā hapū me ngā iwi Māori o te rohe o Manawatū-Whanganui (e hāngai ana ki s62(1)(b) o te RMA), ā, ka whakatakotoria hoki ka pēhea te whakatau i ēnei take. Ka noho tēnei hei kōrerotanga e pā ana ki ngā take whakahaere rauemi o ngā hapū me ngā iwi Māori, ā, ka whakatakoto kaupapa hei hōpara i ngā tikanga Māori me ngā whakaaro Māori e pā ana ki te whakamahi whakahaere rauemi.

The chapter provides background on:

- the Region's hapū and iwi
- hapū and iwi involvement in resource management
- an understanding of Māori values including mauri, taonga*, waahi tapu*, tikanga and kaitiakitanga
- environmental issues of concern to hapū and iwi.

E whai ake nei ko te takenga mai e pā ana ki:

- *ngā hapū me ngā iwi Māori o te rohe*
- *te urunga o ngā hapū me ngā iwi Māori ki roto i te whakahaere rauemi*
- *te māramatanga ki ngā ūara Māori, ehara tonu ko te mauri, ngā taonga, ngā wāhi tapu, ngā tikanga me te kaitiakitanga, me*
- *ngā take taiao e pā ana ki ngā hapū me te iwi.*

¹ Te Ao Māori – The Māori World

4.1.1

The Region's Hapū and Iwi

Ngā Hapū me Ngā iwi Māori o Te Rohe

More than 12 distinct iwi fall either wholly or partly within the Region. These are (alphabetically) Mua Ūpoko, Muaūpoko, Ngāti Maniapoto, Ngā Rauru, Ngāti Apa, Ngāti Hauiti, Ngāti Kahungunu, Ngāti Maru, Ngāti Raukawa, Ngāti Tūwharetoa, Rangitaane, Whanganui (also known as Te Ātihaunui-ā-Pāpārangi and including Ngāti Rangi, Tamaūpoko, Hinengākau, Tūpoho, Tamahaki). Te Iwi Mōrehu at Rātana, an amalgam within which most, if not all, of the country's iwi are represented, is also a significant presence in the Region.

*Neke atu i te 12 ngā iwi Māori kei roto katoa, ka hono mai rānei ki te Rohe, arā, ko (whakarārangi ā-pū nei): ko Mua Ūpoko, ko Ngāti Maniapoto, ko Ngā Rauru, ko Ngāti Apa, ko Ngāti Hauiti, ko Ngāti Kahungunu, ko Ngāti Maru, ko Ngāti Raukawa, ko Ngāti Tūwharetoa, ko Rangitāne, ko Whanganui (e karangatia hei ko Te Ātihaunui-ā-Pāpārangi – whai wāhi atu hoki ko Ngāti Rangi, ko Tamaūpoko, ko Hinengākau, ko Tūpoho, ko Tamahaki). Arā hoki te kohinga iwi o te motu, ko Te Iwi Mōrehu o Rātana, ka kaha kitea i roto tonu i te Rohe. *Tirohia Figure 4.1 mō ngā takiwā a-iwi kua tehua.**

Māori in the Region represent or associate to one or more of the following groups relevant to resource management: whānau (family groupings), hapū or iwi, tribal authorities, marae, Māori land trusts, Māori incorporations and Waitangi Tribunal claimants. Other groupings present in the Region, but which may have a lesser role when dealing with environmental management, are urban Māori, taurahere and Māori cultural/religious bodies. Many non-resident tribal members maintain an active presence in day-to-day iwi or hapū affairs, particularly with regard to environmental matters.

He kanohi kitea, he tangata whai pānga ngā Māori o te Rohe i roto i te whakahaere rauemi mā tētahi – ētahi rānei o ngā rōpū e whai ake nei: whānau, hapū, iwi, rūnanga, marae, Tarāti Whenua Māori, Kaporeihana Māori, kaitono ki te Taraipunara o Waitangi. Arā ētahi atu rōpū o te Rohe, engari he iti noa pea te wāhanga ki a rātou e pā ana ki te whakahaere taiao, arā: ko te hunga Māori noho tāone, ko ngā taura here, me ngā rōpū whakahaere ā-tikanga nei, ā-hāhi nei hoki.

4.1.2

Hapū and Iwi Involvement in Resource Management

Recommendation
TAM S30

Hapū and iwi are an integral part of the regional community. They make many significant contributions to environmental resource enhancement via resource management projects and research, including wetland and lake restoration projects, tuna enhancement programmes, hapū/iwi environmental monitoring programmes, riparian planting, iwi resource environmental management planning or research, and hapū/iwi training and workshops. Iwi management plans* are an important way in which their resource management aspirations are expressed. A list of iwi management plans* relevant to the Horizons Region is available on the Horizons website: www.horizons.govt.nz.

(add an appropriate te reo maori translation)He wāhanga taketake o te hapori a-rohe ko ngā hapū me ngā iwi Māori. He nui ō rātou tukunga e pā ana ki te whakarerekē rauemi taiao, mā ngā kaupapa whakahaere rauemi me te rangahau pērā i ngā kaupapa whakaora papa waiwai – roto hoki; ko ngā kaupapa whakaora tuna; ko ngā kaupapa aroturuki taiao ā-hapū, ā-iwi; ko te whakatō tipu; ko te whakatakoto mahere – rangahau rānei – mō te whakahaere ā-iwi i ngā rauemi taiao; ko ngā awheawhe, ko te whakangungu a-hapū, a-iwi.

Tangata whenua have a special and unique role as kaitiaki in the Region. This relationship with the environment is significant to the identity of whanau, hapū and

iwī. Tangata whenua are also significant land owners and contribute to the local economy.

Ko tā te tangata whenua tūranga, motuhake nei – ahurei anō hoki, hei kaitiaki i roto i te Rohe. He hiranga tēnei hononga ki te taiao mō te tuakiri o ngā whānau, ngā hapū, me ngā iwi Māori. He kaipupuri whenua hiranga hoki te tangata whenua me tā rātou whāngai i te ohanga o te takiwā.

End Report TAM
S29

The special position of hapū and iwi as a Treaty partner is reflected in the specific provisions for Māori under the Resource Management Act 1991 (RMA). The RMA requires the Regional Council to take into account the principles of the Treaty of Waitangi in all its functions and powers. The Regional Council does this in a number of ways in the objectives and policies that follow in this chapter, and throughout the rest of the Plan. The key principles of the Treaty of Waitangi which are relevant include:

- Duty to act in good faith
- Duty to make informed decisions through consultation
- Principle of redress and a duty not to create new grievances
- Principle of reciprocity
- Principle of mutual benefit

In particular, the Regional Council acknowledges the special relationship that hapū and iwi in the Region share with the environment and this is reflected by acknowledging and providing for these values. The Regional Council is committed to strengthening relationships and partnerships to involve hapū and iwi more actively in managing the Region's resources, and this is provided for in particular by Policy 4-1 which identifies how an increasing involvement in resource management will be enabled.

(add an appropriate te reo māori translation) Kei roto i ngā wāhangā o te RMA e pā ana ki te Māori Ka whakaaturia te mana motuhake o ngā hapū me ngā iwi Māori hei Tangata Tiriti. Ka mihi atu te Kaunihera a-Rohe ki ngā hapū me ngā iwi Māori o te Rohe mō ō rātou hononga ki te taiao, ā, he tūturu te here kia whakakaha i ngā hononga kia tino whai wāhi ngā hapū me ngā iwi Māori i roto i te whakahaere rauemi.

The major frustration for hapū and iwi has been the lack of acknowledgement of their concerns in resource management planning and resource consents processes.

Nā te huri tuarā ki ō rātou māharahara e pā ana ki te whakatakoto mahere whakahaere rauemi me ngā whakaaetanga rauemi i hōhā ai ngā hapū me ngā iwi Māori.

4.1.3

An Understanding of Māori Values

The Region's natural resources are considered living taonga* to hapū and iwi, as they share an intimate relationship and are considered physically and spiritually intertwined. The general expectation of hapū and iwi is that appropriate recognition be given to their respective tikanga in the management of resources by Territorial Authorities local authorities and resource users. Direct and effective dialogue is essential to ensure views are discussed thoroughly in order to effect meaningful consultation.

Outlined below is an explanation of traditional Māori values and concepts observed in context with the natural environment and resource management practice.

**Mauri***

(Mauri is defined in the glossary, but the following explains the concept in more detail)

All things, both animate and inanimate, have been imbued with the mauri generated from within the realm of te kore. Nothing in the natural world is without this essential element – the mauri represents the interconnectedness of all things that have being. Humans have an added responsibility to ensure that the mauri inherent in natural resources is maintained. Inappropriate use of resources - for example, discharge of sewage to water - impacts directly on the mauri of the waterway and therefore all factors associated with it. The natural balance which exists amongst all things is disturbed and, in many cases, irreversibly damaged.

Taonga*

(Taonga is defined in the glossary, but the following explains the concept in more detail)*

Taonga* may be material or immaterial, tangible or intangible. The concept of taonga* relates to anything that is prized, treasured or valued for what it is, where it came from and what its potential is. The cultural and spiritual relationship of Māori with their ancestral lands, water, sites, waahi tapu* and other taonga* are referred to in the RMA as a matter of national importance. This implies that taonga* incorporates not only the stated resources in s 6(e) RMA, but also anything that is highly prized – physically, mentally, spiritually and culturally. Physically, taonga* include traditional forms of food and natural material harvested for traditional purposes. Adverse effects on these would not only see the demise of the physical taonga* (food and weaving materials), but the demise of a spiritual and cultural taonga* also. Hapū and iwi are concerned that resources of cultural and spiritual significance be protected.

Waahi tapu* and waahi tupuna*

(Waahi tapu and waahi tupuna* are defined in the glossary, but the following explains the concepts in more detail)*

Waahi tapu (wāhi tapu) relates specifically to sites, areas or locations that remain in a state of tapu. These may include, but are not exclusively, urupā (grave sites), rua kōiwi (places where skeletal remains are kept), wai tohi (streams where baptismal rites are performed), and wāhi pakanga (battle sites). As hapū and iwi have the knowledge of their waahi tapu, the task of defining waahi tapu must rest with them. However, there may be some ambiguity as to which sites remain in a state of tapu. It is important to note that waahi tupuna* - sites of cultural and historical significance to hapū and iwi - exist (though not necessarily in a state of tapu) and should be protected. Such waahi tupuna* may be ancient pā sites, important caves, landscape features, ancient pathways or tribal boundary indicators.

Tikanga

Tikanga not only encompasses the lore, customs and practices of Māori but also the guiding principles of social, economic and political life - a way of life that accounts for all factors whilst practising a close affinity with nature. Tikanga also gives physical expression, through social norms and behaviour, to the concepts of kaitiakitanga and mana.

Kaitiakitanga

(Kaitiakitanga is defined in the Resource Management Act 1991 and that definition is adopted by this plan, but the following explains the concept in more detail)

The concept of kaitiakitanga (the ethic of stewardship) is based on spiritual and physical guardianship met within the social norms and everyday practices of tikanga. Recognition of the mauri held by particular resources also necessitates communication with the spiritual kaitiaki (guardian) to whom that resource is dedicated. The physical responsibility of kaitiakitanga is met by the recognition of the interconnectedness of all elements – mauri and wairua, tapu and noa, mana and tikanga. Therefore, the ethics that underpin hapū and iwi responsibility to

practise kaitiakitanga are based on spiritual and cultural practices and wise resource management to ensure a healthy environment for future generations.

4.1.4

Environmental Issues of Concern to Hapū and Iwi

Ngā Take Taiao e Pā ana ki Ngā Hapū me Ngā iwi Māori

Issues of resource management significance to hapū and iwi include but are not limited to:

Ka whai wāhi ēnei me ētahi atu take whakahaere taiao e pā ana ki ngā hapū me ngā iwi Māori, arā:

Water Quality and Demand

Te Kounga o Te Wai me Te Hiawai

- (a) Management of water quality and quantity throughout the Region does not provide for the special qualities significant to Māori.

Kāore te whakahaeretanga o te kounga me te nui o te wai i te pukumahara mō ngā āhuatanga e ngākaunuitia ana e te Māori pērā i te mauri.

- (b) Hazardous substances and nitrate run-off need to be better managed to avoid contaminants entering waterways.

Me pai ake te whakahaere matū mōrearea me ngā rerenga pākawa ota hei pare i te uru o ngā paru kino ki roto i ngā rerenga wai.

End Report TAM S32

- (c) Lakes and streams (for example, Punahau (Lake Horowhenua) and Hokio Stream) have suffered past and ongoing degradation in past years and are considered culturally unclean.

I ngā tau kua taha ake nei ka hemo ngā roto me ngā manga (pērā i Punahau me Hokio) i te whakakinotanga, ā, kua pokea te tapu.

- (d) Access to and availability to of clean water to exercise cultural activities such as food gathering and baptismal rituals has have diminished.

Kua mimiti haere te putanga ki te wai me te wātea o te wai mō te hāpai i ngā tikanga (pērā i te kohikohi kai, te tohi tamariki, te mea, te mea).

- (e) Marae groundwater bore supply is affected in some areas during seasonal drought.

I ngā wā kōpaka o te tau ka pāngia ngā poka waiopapa o ngā marae i roto i ētahi takiwā.

- (f) Water diversion from one catchment to another is considered culturally abhorrent.

He mea kiriweti ki te Māori te whakataha i te rere noa a te wai mai i tētahi takiwā ki tētahi atu takiwā.

- (g) Sewage disposed to waterways, in treated form or otherwise, is culturally abhorrent. Land-based treatment is preferred.

He mea kiriweti ki te Māori te tuku parakaingaki – ahakoa kua tangohia ngā paru, aha rānei – ki roto i ngā rerenga wai. Pai kē ake te whakapai ki uta.

Land Use and Management

***Te Whakamahi me te Whakahaere Whenua***

- (h) More riparian retirement and planting is needed to protect riverbanks from erosion. Several iwi believe harakeke (flax) would provide the most desirable outcome.

Ko te tikanga me whakarite wāhi whakatū rākau, me whakatō rākau hoki, hei whakamarumaru i ngā parenga i te horo whenua. Ko te whakapono o ētahi iwi mā te harakeke e tutuki pai ai tēnei.

- (i) Farm management plans need to be encouraged to ensure consistent land management practices region-wide.

**Recommendation
TAM 5 p41**

Me kaha akiaki te whakatakoto mahere whakahaere pāmu kia hua ai ngā tikanga rite mō te whakahaere whenua huri noa i te Rohe.

- (ia) Adverse effects on land continue to have a detrimental effect on traditional food gathering areas, native habitats and ecosystems.

(include appropriate te reo maori translation)

- (ib) The removal, destruction or alteration of waahi tapu* and waahi tupuna* by inappropriate activities continues to have a detrimental effect on those sites and upon hapū and iwi.

(include appropriate maori translation)

- ~~(ii) Adverse effects on land continue to have a detrimental effect on waahi tapu.~~

Ka kino tonu ki ngā wāhi tapu ngā pānga kōaro ki ngā whenua.

Native Habitat and Biodiversity***Ngā Wāhi Noho Taketake me Te Kanorau Koiora Taketake***

- (k) The transfer of indigenous native plants from region to region is considered culturally unnatural.

Kāore i te tika ki te whakaaro Māori te whakawhiti tipu taketake mai i tētahi takiwā ki tētahi atu takiwā.

- (l) Indigenous flora and fauna continue to be under increased threat by human and pest activity.

Kei te whakawetia tonutia ake ngā tipu taketake me te aitanga kararehe taketake e te mahi a te tangata me te orotā.

Research***Te Rangahau***

- (m) Further research on preventing salt water intrusion into coastal aquifers is a necessity.

Ka mate ka rangahaua tonutia te ārai i te urunga waitai ki roto i ngā kahupapa takutai moana, ā.

- (n) Biodiversity ~~research and funding~~ needs more research and funding resources.

Me whai rauemi anō te rangahau me te taha putea e pā ana ki te kanorau koiora.

These issues are largely addressed within the respective resource management chapters in Part I of this Plan, as referenced in Table 4.1.

Ka kōrerotia ēnei take i roto i ngā Wāhanga whakahaere rauemi kei Part I o tēnei Mahere – tirohia Table 4.1.

Monitoring and enforcement

- (o)** Remedial action to rectify non-compliance with resource consents and other adverse effects on the environment is at times insufficient to ensure the protection or enhancement of the environment

Environmental Issues of Significance to Hapū and Iwi

Ngā Take Whakahaere Rauemi e Pā ana ki Ngā Hapū me Ngā iwi Māori

Issue 4-1: Environmental management

Take 4-1: Te Whakahaere Taiao

The Region's hapū and iwi view present environmental management to be inadequate for the issues described in Section 4.1.4. As a consequence, the relationships of hapū and iwi with ancestral taonga* are being undermined.

Ko te tirohanga o ngā hapū me ngā iwi Māori o te Rohe mō ngā take e kōrerotia ana i roto o te wāhanga o 4.1.4, kāore i te pai te whakahaere taiao ināianei. Nā whai anō, kua whakaruhia te hononga o ngā hapū me ngā iwi Māori ki ngā taonga a kui mā, a koro mā.

Policy 4-4: Other environmental issues

Kaupapa 4-4: Ētahi take taiao anō

The specific environmental issues raised by hapū and iwi listed in Section 4.1.4 shall be addressed in the manner set out in Table 4.1 below.

Ko ngā take taiao motuhake e rārangitia ana i te wāhanga 4.1.4, kua whakaarahia e ngā hapū me ngā iwi Māori, ka kōrerotia i runga i te takoto o Table 4.1 kei raro nei.

Table 4.1 highlights matters of environmental concern to the Region's hapū and iwi, provides explanations in the context of Māori belief, and demonstrates how the Regional Council will address these matters. The issues and explanations do not in any way represent a complete picture of regional iwi concerns, but they offer possible explanations as to the depth of feeling and connection iwi have with the Region's natural resources.

Ka tīpako tēnei i ngā take taiao e pā ana ki ngā hapū me ngā iwi Māori o te Rohe, ka whakamārama hoki i runga i te whakaaro Māori, ā, ka whakaatu ka pēhea te Kaunihera a-Rohe e whakatutuki pai i ēnei take. (a) Management of water quality and quantity throughout the region does not address cultural elements important to Māori – that is, mauri. <i>Kāore te not provide for the special qualities significant to Māori.</i> <u>(include an appropriate te reo maori translation)</u> whakahaeretanga o te kounga me te nui o te wai i te whakatutuki pai i ngā tikanga Māori whakahirahira pērā i te mauri.	Mauri (essential element) Wai Māori (pure water) is essential to hapū and iwi in the Region to ensure activities conducted for cultural purposes, such as spiritual cleansing, baptismal rituals and food gathering, are achievable. <i>He mea nui te Wai-Māori ki ngā hapū me ngā iwi Māori o te rohe kia hua ai ka taea te whakatutuki i ngā mahi tikanga Māori pērā i te whakanoa, te tohi, me te kohikohi kai.</i> Mauri (explained in 4.1.3), the essential element that gives all living things being, acts as a balancing agent to ensure the life-supporting qualities within the water are maintained. <i>Ko te mauri (e whakamāramatia ana i roto o 4.1.3) te pū o ngā mea ora katoa. Ko tāna he whakatautika i te āhua o te wai hei tiaki i te oranga tonutanga.</i> Human activities, application of unpure agents, loss of water capacity and contaminants all affect the ability of the mauri to perform its role effectively, therefore resulting in a standard of water not suitable for hapū and iwi to perform their relevant tikanga or cultural activities associated with its use. <i>Ka pāngia kinotia te mauri e te mahi a te tangata, te whakamahi mea paruparu, te mimiti o te wai, me te uru mai o ngā paru kino. Methods of Implementation

He Tikanga Whakamahi

These methods outline the approach the Regional Council will take to support and contribute to the delivery of quality outcomes for the Region's hapū and iwi.

Ka whakaatu ēnei tikanga i te huarahi e whai ai te Kaunihera a-Rohe hei tautoko, hei āwhina i te whakaputa hua whai painga ki ngā hapū me ngā iwi Māori o te Rohe.

Project Name <i>Ingoa o Te Kaupapa Mahi</i>	Memoranda of Partnership (MoP) <i>He Manatū Rangapū</i>
Project Description <i>He Whakamārama mō Te Kaupapa Mahi</i>	The primary focus of this project is to improve working relationships with hapū and iwi of the Region to ensure hapū and iwi relationships with ancestral lands and taonga* are protected <i>recognised and provided for</i> . This would also allow direct hapū and iwi input to develop protocols with Regional Council directly to <i>identify and</i> protect waahi tapu* and other sites of significance without the need to <i>directly</i> disclose the location to the general public. <i>Ko te tiro matua o te kaupapa mahi nei ko te whakakaha ake i ngā hononga mahi me ngā hapū me ngā iwi Māori hoki o te Rohe kia hua ai ka whakamarumarutia ngā hononga o ngā hapū me ngā iwi Māori ki ū rātou whenua tupuna me ū rātou taonga.</i>

4.7

Explanations and Principal Reasons

Ngā Whakamāramatanga me Ngā Take Matua

Policies 4-1(a) and (f) and the methods set out in memoranda of partnerships and iwi management plans address the specific planning and relationship parameters provided for hapū and iwi to effect key decision making on natural resources. The rationale for the Regional Council to provide for relationships with hapū and iwi is set out in sections 6(e), 7(a) and 8 of the Resource Management Act 1991.

Kei roto i Kaupapa 4-1(a) me Kaupapa 4-1(f) me ngā tikanga e whakatakotoria ana i roto i ngā Manatū Rangapū me ngā Mahere Whakahaere ā-Iwi, ka kōrerotia ngā āhuatanga o te āta whakatakoto mahere me ngā hononga mā ngā hapū me ngā iwi Māori hei whakatau whiriwhiringa matua e pā ana ki ngā rauemi taiao. Kei roto i wāhanga 6(e), 7(a), 8 hoki o te Ture te take me whakatū hononga me ngā hapū me ngā iwi Māori.

Policies 4-1(b)-(e) and (g) provide options for hapū and iwi to be actively involved in resource management decision making via catchment-based forums, research, seminars or training, and joint management agreements. This policy is in line with clause 3B of the First Schedule of the RMA for the Regional Council to consider ways in which to foster iwi capacity.

Kei roto i Kaupapa 4-1(b)-(e) me Kaupapa 4-1(g) ngā kōwhiringa kia taea ai e ngā hapū me ngā iwi Māori te kaha uru atu ki roto i te whiriwhiri whakahaere rauemi

mā ngā wānanga a-takiwā, te mahi rangahau, ngā awheawhe – te whakangungu rānei, me ngā whakaaetanga whakahaere ngātahi. E hāngai ana tēnei kaupapa ki te whiti 3B o te First Schedule o te RMA kia whakaaroaro te Kaunihera a-Rohe mō ētahi huarahi hei whāngai i ngā iwi Māori kia pakari haere.

Policy 4-2 sets out measures to protect waahi tapu*, waahi tupuna* and other sites and areas of significance (disclosed and undisclosed) from potential damage or disturbance, including that caused by inappropriate subdivision, use and development/earthworks.

Kei roto i Kaupapa 4-2 ngā ritenga mō te whakamarumaru wāhi tapu (ahakoa kei te mōhiotia rānei, kāore anō kia whakamōhiotia rānei) i te keri whenua – me tētahi tikanga mahi kia hua ai ka hāngai tonu ngā ngohe a ngā kaiwhakamahi rauemi me ngā kaikirimana.

Policy 4-3 recognises and provides for the relationship with taonga* by highlighting efforts to protect the mauri of water_bodies. In having particular regard to kaitiakitanga s7(a), a rahui will be initiated with the support of hapū and iwi where a drowning has occurred in a river, to ensure the relevant tikanga has been observed.

Ka whakanuia, ka tukuna hoki e Kaupapa 4-3 he wāhi e pā ana ki ngā hononga ki ngā taonga mā tāna mahi ki te whakamarumaru i te mauri o ngā wai. I runga i te tikanga kua whakatakotia i roto o Kaitiakitanga s7(a), ki te toremi te tangata i tētahi awa, ka poua he rāhui e taunakitia ana e ngā hapū me ngā iwi Māori o taua takiwā kia hua ai ka whāia ngā tikanga tuku iho e tika ana.
