Subject: One Plan Hearing - Further Information
Attachments: AQA Agenda FinalB.pdf; NBR..pdf; Dom Post.pdf; Environmental Policy.pdf

Hi Robyn,

Please find attached the Code of Practice (Environmental Policy) requested by the hearing panel on Tuesday 1 July.

It was also requested to provide a map/information as to the number of quarries/sites in the region. I have been advised by the AQA that it is hard to provide this information in detail as much of this information is commercially sensitive and that the Local Authorities in the region would have this information in terms of consents approved for these operations.

We have further been advised that the volume of cleanfill removal on sites can be up to 70,000m³.

Subsequent information has been provided by the AQA which underscores what was presented in the evidence and demonstrates the importance of planning ahead for this strategic commodity.

Kind regards

Amber Brown
