Hi Robyn,

On Monday the Hearing Panel asked that we send through a copy of:  
The principles for commercial plantation forest management in NZ  
FSC interim standards in NZ.

have attached below:

a) a copy of the Principles

b) the FSC 'interim' standards for two of our three accredited certification bodies in NZ - SCS (Scientific Certification Systems) and SGS.

The panel also asked that we go through the current permitted activity rules under the current Land and Water Plan. To avoid duplication I will caucus with the other forestry reps to this process, and compile comments from us all within the next few days.

would appreciate if you could pass this information on to the panel in the interim.

Regards

Sally
