

Flowering times of common riparian plants to support bee populations

Common Riparian Plants		SPRING Build up			SUMMER Pollination & Honey crop				AUTUMN Winter preparation			WINTER Rest	
		Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul
Akiraho	<i>Olearia paniculata</i>												
Broadleaf	<i>Griselinia littoralis</i>												
Cabbage Tree	<i>Cordyline australis</i>												
Five-finger	<i>Pseudopanax arboreus</i>												
Flax	<i>Phormium tenax</i>												
Kahikatea	<i>Dacrycarpus dacrydioides</i>												
Kaikomako	<i>Pennantia corymbosa</i>												
Kanuka	<i>Kunzea ericoides</i>												
Karamu	<i>Coprosma robusta</i>												
Kohuhu	<i>Pittosporum tenuifolium</i>												
Koromiko	<i>Hebe stricta</i>												
Kowhai	<i>Sophora microphylla</i>												
Kowhai	<i>Sophora godleyi</i>												
Kowhai	<i>Sophora Tetraptera</i>												
Long leaved Lacebark	<i>Hoheria sexstylosa</i>												

		Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul
Narrow leaved Lacebark	<i>Hoheria angustifolia</i>												
Lemonwood	<i>Pittosporum eugenioides</i>												
Lancewood	<i>Pseudopanax crassifolius</i>												
Mahoe*	<i>Melicytus ramiflorus</i>												
Manuka	<i>Leptospermum scoparium</i>												
Mingimingi	<i>Coprosma propinqua</i>												
Mountain Flax	<i>Phormium cookianum</i>												
Pate*	<i>Schefflera digitata</i>												
Puriri*	<i>Vitex lucens</i>												
Putaputaweta	<i>Carpodetus serratus</i>												
Red Matipo	<i>Myrsine australis</i>												
Rewarewa	<i>Knightia excelsa</i>												
Ribbonwood	<i>Plagianthus regius</i>												
Rimu	<i>Dacrydium cupressinum</i>												
Taupata*	<i>Coprosma repens</i>												
Titoki*	<i>Alectryon excelsus</i>												
Totara	<i>Podocarpus totara</i>												
Tree Fuchsia	<i>Fuchsia excorticata</i>												
Tree Lucerne**	<i>Chamaecytisus palmensis</i>												
Wineberry	<i>Aristotelia serrata</i>												

*Frost tender (consider planting once other plants are established or after frosts have past)

**Exotic species (included as potential option during deficit months)
