

CHAPTER 11: Introduction to Regional Plan

11

Introduction to Rules Regional Plan

11.1

Introduction to Part II

As described at the outset, the One Plan comprises two parts.

Part I is the Regional Policy Statement under the Resource Management Act 1991 (RMA) for the Manawatu-Wanganui Region (Chapters 1 to 10A, Schedule F and relevant definitions in the Glossary). It describes the significant resource management issues facing the Region and sets out the objectives, policies and methods for addressing those issues. Part I presents the overarching resource management framework for the Region.

Part II is the Regional Plan under the RMA for the Manawatu-Wanganui Region (Chapters 11 to 18, relevant schedules and definitions in the Glossary). It includes the Regional Coastal Plan (Chapter 17 and Schedule H as well as Chapters 11, 11A and 18 and relevant definitions in the Glossary). The primary focus of Part II is on regional rules prescribing how activities controlled by the Regional Council under the RMA are regulated. Part II also contains policies designed to guide decision-making on resource consent applications.

The contents of Part II are as follows:

- **Chapter 11** (this chapter) provides a users' guide to the regional rules, describing how activities can be regulated under the RMA and explaining the tables used for presenting the rules in this Plan. Chapter 11 also provides a summary table of all the rules. This summary (in Section 4.4.3 11.1.4) is a useful starting point for anyone wishing to find the rule or rules for a particular activity. ~~It also contains the general objectives and policies for the Plan.~~
- **Chapter 11A** contains objectives and policies relating to consent compliance processes, including consent durations, review and enforcement.
- **Chapters 12 to 17** set out the rules for:
 - land use activities and certain activities in rare habitats*, threatened habitats* and at-risk habitats* (Chapter 12)
 - discharges to land and water (Chapter 13)
 - discharges to air (Chapter 14)
 - takes, uses and diversions of water, and bores* (Chapter 15)
 - the beds of rivers, lakes and artificial watercourses, and damming (Chapter 16)
 - activities in the coastal marine area (CMA) (Chapter 17).

The rules in each of these chapters are supported by objectives and policies setting out decision-making criteria or matters to be considered during resource consent processes.

- Finally, **Chapter 18** sets out provisions for financial contributions.

11.1.1

Users' Guide to Rules

Chapters 12 to 17 of this Plan contain rules that allow, regulate or prohibit resource-use activities. This users' guide provides an explanation of the classification of activities under the RMA and a guide to understanding how the rules are set out in the rule tables.

11.1.2

Activity Classifications

The various types of activities are described in ~~s77B~~ s77A RMA and, in the case of restricted coastal activities, s2 of the ~~Resource Management Act RMA~~. The information below is intended to provide a summary of the Act as it relates to rules in a regional plan.

- (a) If an activity is described as a **permitted** activity, it can be carried out without a resource consent provided it complies with the conditions, standards or terms, if any, specified in the rule.
- (b) If an activity is described as a **controlled** activity, a resource consent is required but the Regional Council must grant the consent if the conditions, standards and terms, if any, in the rule are met. However, the Regional Council may impose conditions on the consent relating to matters specified in the rule over which control is reserved.
- (c) If an activity is described as a **restricted discretionary** activity, a resource consent is required and the Regional Council will decide whether or not to grant the consent. However, the Regional Council's powers to decline a resource consent or to impose consent conditions are restricted to the matters specified in the rule over which discretion is restricted.
- (d) If an activity is described as a **discretionary** activity, a resource consent is required and the Regional Council will decide whether or not to grant the consent. This decision will depend upon how consistent the proposed activity is with provisions of the RMA and the objectives and policies set out in this Plan.
- (e) If an activity is described as a **non-complying** activity, a resource consent is required. Consent can only be granted if the Regional Council is satisfied that either the adverse effects on the environment will be minor, or the activity will not be contrary to the objectives and policies of this Plan.
- (f) If an activity is described as a **prohibited** activity, the activity is not allowed under any circumstances.
- (g) If an activity in the coastal marine area is described as a **restricted coastal activity**, in addition to being classified as a discretionary or non-complying activity, the Minister of Conservation has required the activity to be so specified on the basis of its potentially significant or irreversible adverse effects. The Minister of Conservation is the consent authority for restricted coastal activities.

11.1.3

Guide to Rule Tables

The rules in this Plan are arranged in tables. Each table has five columns. After each table of rules, a “rule guide” is included to explain how activities which are not included in the table, or which fail to comply with the provisions of a particular rule, are classified.

Rule	Activity	Classification	Conditions/Standards/Terms	Control/Discretion, Non-Notification
This column contains the rule number and rule title.	This column describes the activity or activities covered by the rule.	This column contains the classification of the activity - i.e., permitted, controlled, restricted discretionary, non-discretionary, non-complying or prohibited. This column also identifies which activities are restricted coastal activities.	This column contains conditions, standards and terms for permitted activities, controlled activities and restricted discretionary activities. The conditions, standards and terms are ongoing requirements that must be met for as long as the activity is undertaken. Failure to comply with these conditions, standards and terms amounts to a breach of the rule.	This column is relevant only for controlled activities and restricted discretionary activities . For controlled activities, this column contains the matters over which the Regional Council has reserved its control. For restricted discretionary activities, it contains the matters to which the Regional Council has restricted the exercise of its discretion. Under s 77D RMA, a rule for a controlled activity or a restricted discretionary activity may state whether consent applications may be decided without public notification or without service on affected persons. This column also includes any such statements about non-notification. The Regional Council is not obliged to make statements about non-notification: the Regional Council can simply choose to rely on the provisions of the RMA which describe when public notification is, or is not, required.

11.1.4 Summary of Rules

Table 11.1 Summary of regional rules

Rule Number and Title	Classification
<p>CHAPTER 12: LAND USE ACTIVITIES AND LAND-BASED BIODIVERSITY INDIGENOUS BIOLOGICAL DIVERSITY</p> <p>Vegetation clearance[*], and land disturbance[*], forestry[*] and cultivation[*] and indigenous biological diversity</p> <p>12-1 <u>Large-scale land disturbance[*], including earthworks</u> <u>Vegetation clearance and land disturbance not covered by other land</u></p> <p>12-2 <u>Production Forestry[*]</u></p> <p>12-3 <u>Cultivation[*] Land disturbance</u></p> <p>12-4 <u>Specified vegetation clearance[*] and land disturbance[*] in a Hill Country Erosion Management Area[*]</u></p> <p>12-5 <u>Vegetation clearance[*], and land disturbance[*], cultivation[*] or forestry[*] that does not comply with Rules 12-1 to 12-4 on coastal foredunes and near waterbodies</u></p> <p>12-6 <u>Some activities within rare habitats[*], threatened habitats[*] and at-risk habitats[*]</u> <u>Vegetation clearance and land disturbance that do not comply with permitted and controlled activity rules</u></p> <p>Land-based biodiversity including wetlands</p> <p>12-7 <u>Activities within at-risk habitats</u></p> <p>12-8 <u>Activities within rare and threatened habitats including wetlands</u></p>	<p>Permitted</p> <p>Permitted Controlled</p> <p>Permitted Controlled</p> <p>Restricted Discretionary</p> <p>Discretionary</p> <p>Discretionary</p> <p>Discretionary</p> <p>Non-complying</p>

<p>CHAPTER 16: STRUCTURES AND ACTIVITIES IN ARTIFICIAL WATERCOURSES*, INVOLVING THE BEDS OF RIVERS, AND LAKES AND ARTIFICIAL WATERCOURSES, AND DAMMING Special Rivers and Lakes Protected rivers and regionally significant lakes</p>	

Rule Number and Title	Classification
16-1 Damming of protected rivers [^]	Prohibited
16-2 Other structures and disturbances in protected rivers	Non-complying
16-3 Reclamation and drainage of regionally significant lakes [^]	Non-complying
16-4 Structures [^] and disturbances involving waterbodies a reach of river [^] or its bed [^] with Schedule AB Values of valued as Natural State, Sites of Significance - Aquatic, and Sites of Significance - Cultural	Discretionary
Use, Maintenance[*], repair Upgrade[*], Removal and Demolition of Structures	
16-5 Use of structures [^]	Permitted
16-6 Maintenance [*] and repair upgrade [*] of structures [^] , and associated ancillary removal of bed [^] material and plants	Permitted
16-7 Removal and demolition of structures [^]	Permitted
Dams and Damming	
16-8 New and existing and new small dams	Permitted
16-9 Replacement consents for Other existing dams damming of water [^]	Controlled
Other Structures	
16-10 Lines, cables, pipelines and ropeways	Permitted
16-11 Culverts	Permitted
16-12 Other structures [^] , including bridges, fords and other access structures [^]	Permitted
16-12A Recording sites [*]	<u>Permitted</u>
16-12B Bridges and culverts constructed to comply with Rules 13-1 to 13-1C	<u>Controlled</u>
Activities Within Rivers with a Schedule AB Value of Flood Control and Drainage schemes	
16-13 Activities undertaken by or on behalf of the Regional Council in rivers [^] with a Schedule AB Value of Flood Control and Drainage schemes	Permitted
16-14 Activities affecting the Schedule AB Value of Flood Control and Drainage schemes	Discretionary
Gravel Extraction, Bed Disturbances and Plants	
16-15 Small-scale gravel extraction	Permitted
<u>16-15A Other gravel extraction</u>	<u>Restricted Discretionary</u>
16-16 Other minor bed [^] disturbances	Permitted
16-17 Plants	Permitted
Activities in Artificial Watercourses[*] and Non-natural Lakes[^]	
16-18 Minor activities involving the beds of artificial watercourses [*]	Permitted
16-19 Bed [^] disturbance of artificial non-natural lakes [^] to maintain their function	Permitted
Activities that do not Comply with Permitted Activity, Controlled Activity or Restricted Discretionary Activity Rules and all other s13(1) RMA Activities Not Covered by this Chapter other rules	Controlled
16-20 Activities that do not comply with <u>permitted activity[^]</u> , <u>and controlled activity[^]</u> and <u>restricted discretionary activity[^]</u> rules [^] and all other s13(1) RMA activities not covered by this chapter	Discretionary

CHAPTER 17: ACTIVITIES IN THE COASTAL MARINE AREA (CMA)	
Occupation	
17-1 <u>Occupation</u> [^] by existing <u>structures</u> [^]	Permitted
17-2 <u>Temporary occupation</u> [^]	Permitted
17-3 <u>Occupation</u> [^] of <u>space</u> [^] by aquaculture	Controlled
17-4 <u>Exclusive occupation</u> [^]	Discretionary and restricted coastal activity
17-5 <u>Occupation</u> [^] of <u>space</u> [^] in <u>Protection Activity Management Areas</u> <u>protection zones</u>	<u>Non-complying</u> <u>Prohibited</u>
Structures	
17-6 <u>Maintenance</u> [*] <u>and repair</u> of <u>structures</u> [^]	Permitted
17-7 Removal or demolition of <u>structures</u> [^]	Permitted
17-8 Navigation aids, lines, cables, pipelines and ropeways, <u>whitebait</u> [*] stands and maimai	Permitted
17-9 <u>Structures</u> [^] in the <u>Port Activity Management Area Zone</u>	Controlled
17-9A <u>Wharf extension in the Port Activity Management Area</u>	<u>Permitted</u>
17-10 <u>Structures</u> [^] for public access	<u>Restricted</u> <u>Discretionary</u> <u>Controlled</u>
17-11 <u>Aquaculture structures</u> [^]	Controlled
17-12 <u>Large structures</u> [^] which impound the CMA, are parallel to shore, or are oblique or perpendicular to shore	Discretionary and restricted coastal activity
17-13 Petroleum and chemical storage	Discretionary and restricted coastal activity
17-14 <u>Structures</u> [^] in a <u>Protection Activity Management Area zone</u>	Prohibited
Reclamation and Drainage	
17-15 Drainage	Discretionary
17-16 Small reclamations except in <u>Protection Activity Management Areas zones</u>	Discretionary
17-16A <u>Small reclamations within the Port Activity Management Area</u>	<u>Restricted</u> <u>Discretionary</u>
17-17 Large reclamations except in <u>Protection Activity Management Areas zones</u>	Discretionary and restricted coastal activity
17-18 Small reclamations in <u>Protection Activity Management Areas zones</u>	<u>Non-complying</u> <u>and</u> <u>restricted coastal activity</u>
17-19 Large reclamations <u>except</u> in <u>Protection Activity Management Areas zones</u>	<u>Non-complying</u> <u>and</u> <u>restricted coastal activity</u>
Disturbances, Removal and Deposition	
17-20 Removal of minor quantities of material	Permitted
17-21 Minor disturbances, removal and deposition	Permitted
17-21A <u>Minor disturbances from drilling</u>	<u>Permitted</u>
17-21B <u>Shellfish enhancement</u>	<u>Permitted</u>
17-22 Beach nourishment	Controlled
17-23 <u>Port Activity Management Area zone</u> and Whanganui River maintenance dredging	Discretionary
17-24 <u>Port and General Activity Management Areas</u> : Large-scale disturbances, removal and deposition <u>excluding protection zones</u>	Discretionary and restricted coastal activity
17-25 <u>Protection Activity Management Areas</u> : Small-scale to medium-scale disturbances, removal and deposition in <u>protection zones</u>	<u>Non-complying</u> <u>and</u> <u>restricted coastal activity</u>
17-26 <u>Protection Activity Management Areas</u> : Large-scale disturbances, removal and deposition in <u>protection zones</u>	<u>Non-complying</u> <u>and</u> <u>restricted coastal activity</u>
Water Takes, Uses, Damming and Diversions	

17-27	Take and use of water [^]	Permitted
17-28	Drainage and diversions of water [^] in the CMA	<u>Permitted Discretionary</u>
Discharges		
17-29	Discharges [^] into water [^] from ships [^] , boats, fire-fighting and oil [^] spills	Permitted
17-30	Discharges [^] of stormwater	Permitted
17-31	Discharges [^] of stormwater not complying with Rule 17-30	Controlled
17-32	Discharges [^] of dye and salt tracers	Permitted
17-33	Application of <i>agricultural</i> [*]	Permitted
17-34	Application of <i>agricultural</i> [*] not complying with Rule 17-33	Controlled
17-35	Sewage and s107(2) RMA discharges [^]	Discretionary and restricted coastal activity
17-36	<i>Dumping</i> [^] of hazardous substances [*]	Prohibited
Noise and Discharges into Air		
17-37	Noise discharges <u>emissions</u>	Permitted
Exotic and Introduced Plants		
17-38	Exotic and introduced plants	Discretionary and restricted coastal activity
Activities that are not Covered by other Rules, or which do not Comply with Permitted Activity and Controlled Activity Rules		
17-39	Activities that are not covered by any other rule [^] , or which do not comply with <u>permitted activity</u> [^] and <u>controlled activity</u> [^] rules [^]	Discretionary

11.2 General Objectives and Policies

11.2.1 Scope and Background

Under the RMA most activities affecting air quality, water quality and quantity, the beds of rivers and lakes and the coastal marine area are restricted unless allowed by a rule of resource consent. Many such activities have only minor effects and requiring a resource consent in every case would be unduly bureaucratic and costly. By contrast, land use activities are allowed under the Act unless restricted by a rule. Some land use activities can have very significant effects which should not be allowed without restriction. Through rules the Regional Council can both free up as many minor activities as possible, thereby minimising costs on resource users, and restrict activities that might otherwise cause significant effects. This chapter describes the Regional Council's overarching objective and policies for regulating activities. It then sets out general rules that serve as a default for other rules in this Plan.

11.2.2 Objective

Objective 11-1: Resource management in the Manawatu-Wanganui Region

(a) The regulation of activities in a manner which maximises certainty and avoids unnecessary costs on resource users and other parties.

(b) The regulation of activities in a manner which gives effect to the provisions of Part I of this Plan, the Regional Policy Statement.

11.2.3 Policies

Policy 11-1: Regional rules for restricted activities

For activities that are restricted under Part III of the RMA, pursuant to Sections 12(1), 12(2), 13(1), 14(1), and 15(1), regional rules will be adopted which:

- (c) classify as **permitted** those activities that either are unlikely to have more than minor adverse effects on the environment, or may have more than minor adverse effects but these effects are acceptable and do not require any site-specific regulation by way of resource consents
- (d) classify as **controlled** those activities that can have more than minor adverse effects on the environment, but where the need for site-specific management can be confined to a narrow list of matters that can be addressed by way of consent conditions on a consent that must be granted
- (e) classify as **restricted discretionary** those activities for which the Regional Council needs to retain its discretion to decline consent owing to the potentially significant level of adverse effects, but it is possible to restrict the exercise of the Regional Council's discretion to a specified list of matters
- (f) classify as **discretionary** those activities for which the Regional Council needs to retain its discretion to decline consent owing to the potentially significant level of adverse effects, and it is not practicable to restrict the exercise of the Regional Council's discretion to a specified list of matters
- (g) classify as **non-complying** those activities for which the Regional Council would generally not grant a resource consent owing to the potential for very significant adverse effects on the environment
- (h) classify as **prohibited** those activities for which there is clear evidence that the activity is likely to have adverse effects that are so significant that they could not be adequately avoided, remedied or mitigated under any circumstances
- (i) classify as a **restricted coastal activity** (in addition to being classified as discretionary or non-complying) those activities in the coastal marine area that are required to be so classified by the Minister of Conservation.

Policy 11-2: Regional rules for unrestricted activities

For activities that are allowed under Part III of the RMA, pursuant to Sections 9(3), 12(3), 13(2), 14(2), and 15(2), the Regional Council will intervene by way of regional rules only where:

- (a) any such activity is likely to cause significant adverse effects on the environment, and
- (b) regional rules are the best means of addressing those adverse effects.

For any rules adopted for these activities, activities will be classified in the same manner as that set out under Policy 11-1.

Policy 11-3: Conditions, standards and terms in regional rules

Regional rules will contain measurable and enforceable conditions, standards and terms so that there is certainty for both resource users and other interested parties.

Policy 11-4: Common catchment expiry or review date

Consent expiry dates will be set to the closest common catchment expiry or review date as outlined below in Table 11.2, unless any of the circumstances described in Policy 2.2 apply. The dates listed in Table 11.2 show the initial expiry or review date for all consents within the catchment. Future dates for expiry or review of consents within that catchment shall occur again every ten years thereafter.

For a consent which has duration longer than ten years, review of the consent shall occur on the review date in Table 11.2 and every ten years thereafter until consent expiry. Extra review dates may be set in accordance with Policy 2.3.

Table 11.2: Common expiry/review dates for consents in water management zones

Management Zone	Sub-zone	Expiry/ review (1-July)	Expiry/ review (1-July)
Upper Manawatu	Upper Manawatu, Mangatowainui and Mangatere	2011	2016
