**SECTION 42A REPORT OF TRISHA SIMONSON – ON-SITE WASTEWATER**

---

**27 April 2022**

## **A. INTRODUCTION**

### **Qualification and Experience**

1. My name is Trisha Simonson and my qualification and experience are set out in my primary s42A report dated 6 April 2022.

## **B. REPORT ADDENDUM**

2. Further to my s42A report, the s41B reports from the Applicant have confirmed that the initially proposed composting toilets, three of which were to be installed on the golf course, were removed from the proposal in September 2021.
3. This change was initially overlooked as the documentation in the 14 September s92 further information retained visual reference<sup>1</sup> to the provision of composting toilets and no clear statement was made that the composting toilets in the July application had been removed.
4. That being said, my assessment of the composting toilets usage and the effects of their discharges as covered in my report dated 6 April 2022, particularly within paragraphs 31, 33 and 38 are no longer relevant nor required. Any reference to composting toilets may also be removed from the draft conditions of consent.
5. The removal of the composting toilets does not change my conclusions that the on-site water treatment and discharge aspects of the application have been designed in accordance with the relevant guidelines and are expected to ensure effects on the environment are less than minor, providing the recommended conditions of consent are met.

**DATED** this 27 day of April 2022

**Trisha Simonson**
