Application for Resource Consent: Land Disturbance (Earthworks) and/or Cleanfill

Form B: Activity Information and Assessment Form

A complete Administration Form (Form A) MUST accompany this Activity Information and Assessment Form (Form B) when lodging your application. The purpose of this form is to provide the applicant with quidance on information that is required under the

Resource Management Act 1991. These forms are to act as a guide only, and Horizons Regional Council reserves the right to request additional information.

	APPLICANT NAME
_	APPLICATION PURPOSE What is the purpose of this application (select one)
	New consent
	Renewal of consent
	Consent number Expiry date
	Consent term sought
F	Resource consents are typically aligned with the relevant common catchment expiry dates in Policy 12-5 of the One Plan.
١	What is the reason for the proposed land disturbance? (E.g. subdivision, quarry)
	Please specify the type of works which occur (please tick)
	Soil disturbance and/or roading and tracking
	Cleanfill placement – natural material such as clay, soil and rock and other inert materials such as concrete or brick
	Overburden placement – clay, soil and rock associated with quarries and mining
	Earthworks associated with a structure
	Quarry
	Other – specify in more detail below

LOCATION
Location of the proposed works
Map reference (NZTM 2000) E
DESCRIPTION OF PROPOSED ACTIVITY
Please describe the present land use of the site (please tick) Farming (beef, dairy, sheep etc) Reserve (conservation, recreational, marginal strip) Exotic forest native forest/regenerating bush/rare, threatened or at-risk site* Other – please specify. **As defined in Schedule F of the One Plan Please describe the contour of the land at and surrounding the site. Please also indicate the percentage of the site that the contour type covers. Flat
Please note this includes both artificial waterways and permanently flowing and intermittently flowing waterways with a bed greater than 1m.

What is the total area in m² which will be disturbed?
What is the total volume of material that will be disturbed, or for a clean fill site, disposed of?
For earthworks, where will you dispose of the cleared material?
What time of year do you intend to do the works?
How long will the works take to complete? (If the work is being undertaken in stages please describe these).
What type of vegetation currently covers the site?
Will the site be revegetated? Please describe what will be planted.
For cleanfill sites, where will the material be imported from?

4	RULE ASSESSMENT
	Rule 13-1 of the One Plan permits earthwork activities and Rule 14-21 of the One Plan permits certain cleanfill activities as long as you can meet certain conditions and standards. Please ensure your activity is not a permitted activity under these rule(s). If you require assistance, please contact the consents team on freephone 0508 800 800.
	Please indicate which rule of the One Plan your activity falls under
	Chapters 13 and 14 can be accessed via http://www.horizons.govt.nz/publications-feedback/one-plan.
_	
5	ASSESSMENT OF ENVIRONMENTAL EFFECTS
	For your application to be considered, an assessment of effects must be included. Please answer all questions below. Additional information may need to be provided depending on the scale and significance of your proposal.
	Detail any hazardous or toxic chemicals or hydrocarbons (such as fuel) that are related to your activity and may be used or stored on site. Describe how these will be managed to avoid risk to the environment.
	Describe any effects your operation may have on the neighbourhood, including dust, sedimentation of waterways, land stability and cultural effects. Other areas that need effects assessed are historic sites and recreational areas, such as parks, scientific areas, and scenic features.
	parks, scientific areas, and sceme readires.
	Management of the state of the
	If your proposed activity falls within a Discretionary or Non-Complying Activity status, please note that an assessment of cultural effects will be required. This should be informed by [written] feedback from the relevant iwi and/or hapū. For indicative rohe and contact details of your local iwi and/or hapū please visit http://www.tkm.govt.nz/.

	Is the activity on, adjacent to, or may affect land that is subject of a statutory acknowledgment? Yes No										
	List of statutory acknowledgments:										
	Ngāti Tūwharetoa (Bay of Plenty) Claims Settlement Act 2005										
	Ngaa Rauru Kiitahi Claims Settlement Act 2005										
	Ngāti Apa (North Island) Claims Settlement Act 2010										
	Rangitāne o Manawatu Claims Settlement Act 2016										
	Rangitāne Tū Mai Rā (Wairarapa Tamaki nui-ā-Rua) Claims Settlement Act 2017										
	Ngāti Rangi Claims Settlement Act 2019										
	Information on statutory acknowledgments can be found on the Horizons website: https://www.horizons.govt.nz/about-our-region-and-council/iwi-and-hapu										
	If yes, Council must have regard to the statutory acknowledgments. We recommend that applicants considering undertaking										
	works that may affect a statutory acknowledgment make contact with local iwi and/or hapū before the lodgement of a consent application to determine if there are any effects on the statutory acknowledgment.										
_											
5	TE AWA TUPUA (WHANGANUI RIVER CLAIMS SETTLEMENT) ACT 2017										
	Are the proposed works in the Whanganui catchment? Yes No										
	Please note that this covers a large area. If you are unsure, please contact the consents team.										
	If yes, the Whanganui River and its wider catchment is the subject of the Te Awa Tupua (Whanganui River Claims Settlement) Act										
	2017. Council must have regard to the values of Te Awa Tupua when making a decision on any application we receive (regardless of										
	activity status). On that basis, we recommend that parties considering undertaking works within the Whanganui catchment make										
	contact with Ngā Tāngata Tiaki o Whanganui and local iwi and/or hapū before lodgement of a consent application to confirm any										
	requirements under Te Awa Tupua and obtain feedback on the proposed works.										
	TE WALL O TE IVA - WHANGAELII DIVED (NGĀTI DANGI CI AIMS SETTI EMENT ACT 2010)										
	TE WAIŪ-O-TE-IKA - WHANGAEHU RIVER (NGĀTI RANGI CLAIMS SETTLEMENT ACT 2019)										
	Are the proposed works in the Whangaehu catchment? Yes No

GOOD MANAGEMENT PRACTICES AND MITIGATION MEASURES

Please supply an Erosion and Sediment Control Plan appropriate to the scale of the works. The method and or management tools contained within the plan shall be, at a minimum, in general accordance with Section 8 of the "Erosion and Sediment Control Guidelines for the Wellington Region" dated September 2002 (or any later amendments). This document can be sourced from www.gw.govt.nz.

An Erosion and Sediment Control Plan normally contains two parts, a written methodology and a site plan. The written methodology contains information on various aspects of the project and proposed erosion and sediment controls including how sediment loss will be minimised. The site plan provides a visual understanding of what the site looks like and includes details such as the location of erosion and sediment control devices and other relevant features.

Please confirm an Erosion and Sediment Control Plan is attached Yes	No
What, if any, monitoring do you propose to carry out to avoid, remedy, mitigate the effects of the proposal?	: potentiai adverse environmentai
In a large operation, regular compliance tests may be required to be undertaken fo	r any discharges such as these from
sediment retention ponds. How do you plan to monitor the discharges?	r any discharges such as those from
F	wish she #A Coilde to the Management
For cleanfill operations you must ensure there is a record of material in accordance of Cleanfills (Ministry for the Environment, 2002)". Please advise how you will meet	

	ion of any possible alternative locations or methods for undertaking any discharges associated parge of sediment from earthworks site or location of cleanfill site) and why these alternatives have not

12 RELEVANT STATUTORY PROVISIONS

The Resource Management Act 1991 requires this application to include an assessment of the proposed activity against the One Plan. Answering the following questions will satisfy this requirement. If you are unable to answer the questions below, or you believe your proposal is inconsistent with the relevant policies and documents discussed, it is recommended you seek professional planning assistance to help you with your application. For a complete copy of the One Plan visit http://www.horizons.govt.nz/publications-feedback/one-plan.

REGIONAL POLICY ASSESSMENT The objectives and policies of Chapters 4 (Land) and 5 (water) are relevant to	this applicat	tion.		
Is the activity consistent with the relevant provisions of the Regional Policy St	atement?	Yes	No

ADDITIONAL CHECKLIST INFORMATION

A SITE plan to scale showing:

- · Site boundary
- Location of roads and property boundaries
- Buildings and residential properties
- Location of any sensitive sites (e.g. historical places, sites of importance to iwi) in the proximity of the site
- Identification of any rare, threatened or at-risk habitats
- Any waterways including ephemeral waterways, drains, lakes and/or wetlands.

An Erosion and Sediment Control Plan appropriate to the scale of the works.

The method and or management tools contained within the plan shall be in general accordance with Section 8 of the "Erosion and Sediment Control Guidelines for the Wellington Region" dated September 2002.

Please contact the consents team on freephone **0508 800 800** if you require assistance with your application.
