## Application for **Resource Consent: Discharge to Land (General)**

Form B: Activity Information and Assessment Form

A complete Administration Form (Form A) MUST accompany this Activity Information and Assessment Form (Form B) when lodging your application. The purpose of this form is to provide the applicant with guidance on information that is required under

the Resource Management Act 1991. These forms are to act as a guide only, and Horizons Regional Council reserves the right to request additional information.

	ICATION PURPOSE s the purpose of this application (select one)
$\bigcirc$	New consent
$\bigcirc$	Renewal of consent
	Consent number Expiry date
	ent term sought
lote: l	Resource consents are typically aligned with the relevant common catchment expiry dates in Policy 12-5 of the One Plan.
OCA	TION AND SITE DESCRIPTION
.ocat	on of the proposed discharge
.ocat \ddre	on of the proposed discharge
ocat Addre Map r	on of the proposed discharge
ocat Addre Nap r egal	on of the proposed discharge
ocat Addre Map r egal detal	on of the proposed discharge
ocat Addre Map r egal detal	on of the proposed discharge  sss  eference (NZTM 2000) E  description  led site map will be required with this application.  sibe the type of land use surrounding the site (e.g. north, residential – closest 500m; south, industrial, etc) and identify any sensitive
ocat Addre Map r egal detal	on of the proposed discharge  sss  eference (NZTM 2000) E  description  led site map will be required with this application.  sibe the type of land use surrounding the site (e.g. north, residential – closest 500m; south, industrial, etc) and identify any sensitive

DESCRIPTION OF PROPOSED ACTIVITY
What is the source of the contaminant/s? (E.g. industry, cleanfill, landfill composting animal wastes, breweries etc.)
Provide a detailed description of contaminant characteristics, physical and chemical composition, and whether it is a classified hazardous substance.
Is the waste treated before being discharged? Yes No  If 'Yes', please describe the treatment.
Describe the discharge method, period, volume and rate of discharge (include calculations).
Please provide any other information regarding the discharge to land that you consider may be relevant to this application.

A number of the activities under Chapter 14 of the One Plan are permitted activities as long as you can meet certain conditions and standards. Please ensure your activity is not a permitted activity under Chapter 14 of the One Plan. If you require assistance, please contact the consents team on 0508 800 800.
Please indicate which rule of the One Plan your activity falls under
ASSESSMENT OF ENVIRONMENTAL EFFECTS
For your application to be considered, an assessment of effects must be included. Please answer all questions below. Additional information may need to be provided depending on the scale and significance of your proposal.
Describe soil type/s in the discharge area/s and the source of this information. (E.g. soil maps, soil test, local knowledge)
What effect will the discharge have on soil?
That cheet will the discharge have on some
GROUNDWATER
What is the depth to groundwater at the discharge site/s (and is the direction of groundwater flow known)?
Are there any bores in the vicinity (including neighbouring properties), and what are they used for?  Yes  No
If 'Yes', please show them on the site plan and describe their use below.
What is the land drainage like in the discharge area/s? Is the soil artificially drained?

**RULE ASSESSMENT** 

What effect will the discharge have on groundwater?
<b>SURFACE WATER</b> How far is the nearest surface waterbody/s (including ephemeral) to the discharge area/s and in what direction (E.g 50m north east)?
What effect will the discharge have on surface water?
NEIGHBOURING PROPERTIES AND VEGETATION  Are there any sensitive environments close to the discharge area? Yes No  E.g. rare, threatened or at-risk habitats, recreational areas.
If 'Yes', show them on the site plan and describe them below.
Describe the potential effects that the proposed activity/operation could have on neighbouring properties and/or sensitive environments noted above.

5	GOOD MANAGEMENT PRACTICES AND MITIGATION MEASURES
	Please include a description of the monitoring or mitigation measures (including safeguards and contingency plans where relevant) to be undertaken to help avoid, reduce, remedy or mitigate the actual or potential effects on environmental features and values.
	In your description please include the following:
	(a) treatment of the contaminants prior to discharge;
	(b) buffer distances from water bodies, sloping land, site boundaries;
	(c) details of any storage to be provided to enable deferred irrigation;
	(d) a description of the monitoring system to be used for checking and recording the quality and quantity of the discharge. Please include how and when the monitoring will occur, and by whom; and
	(e) contingency planning – describe how the equipment controlling the discharge will be operated and maintained to prevent equipment failure, and what measures will be implemented to ensure that the effects of any malfunction are remedied.
7	CONSIDERATION OF ALTERNATIVES
	Please include a description of any possible alternative locations or methods for undertaking the activity and why these alternatives have not been selected.

8				
_	CONSII	ITATIANI	AFFECTED	DADTIES

Please include evidence of any consultation undertaken for this application. This may include (but not be limited to) consultation with adjoining landowners, other consent holders in the immediate area, lwi, government departments/ministries (e.g. DoC), territorial authorities and recreational associations (e.g. Fish and Game New Zealand). Please ensure that you have considered any statutory acknowledgements in the Horizons Region. For more information visit http://www.horizons.govt.nz/about-our-region-and-council/iwi-and-hapu/statutory-acknowledgements)

If you are in doubt about who you should be talking to call a member of the consents team on 0508 800 800.

NATIONAL ENVIRONMENTAL STANDARDS FOR SOURCES OF DRINKING WATER (NES-DW)  Are there any public water supplies that could be affected by your proposal? Yes No  An assessment under the NES-DW will need to identify any sources of human drinking water that supply more than 25 people that might be affected by the activity. Horizons Regional Council holds a list of such water supplies within its region and will be able to provide assistance when identifying water supplies within the vicinity of the activity.  Discussion with the water supply operator may also be beneficial in determining whether the supply could be affected and what measures can be taken to	Address	Address	Please provide details of those you have identified as parties who may be affected. If you have discussed your propo with any of these parties, please record any comments and your response to them and submit this with your applica

	Please state any other NES that you consider may be relevant to your activity and provide an assessment against that NES.
0	RELEVANT STATUTORY PROVISIONS
	The Resource Management Act 1991 requires this application to include an assessment of the proposed activity against the One Plan. Answering the following questions will satisfy this requirement. If you are unable to answer the questions below, or you believe your proposal is inconsistent with the relevant policies and documents discussed, it is recommended you seek professional planning assistance to help you with your application.
	For a complete copy of the One Plan visit http://www.horizons.govt.nz/publications-feedback/one-plan
	REGIONAL POLICY ASSESSMENT  The objectives and policies of Chapter 5 (Water) are relevant to this application.
	Is the activity consistent with the relevant provisions of the Regional Policy Statement?  Yes  No
	Please provide reasons for your answer above
