**Teresa SCHULZ**

Independent

My principal place of residence is in the Manawatū-Rangitikei Constituency area.

My childhood is full of fond memories helping my grandfather on the farm. Having grown up on the farm and now studying environmental science means I see what is required from our regional council. As an agroecologist, I have the knowledge and skills to ensure council decisions enable a sustainable future for our farming communities. I will encourage the council to recognise that wise management of our natural resources is the basis for a sound economy.

I support working collaboratively to find ways to clean up rivers, use land sustainably and protect biodiversity. I want to see greater community engagement and further improvements to our flood management systems.

My commitment to council is serious and my goal is to make decisions that will stand the test of time for the future resilience and prosperity of our region, for the sake of my children and yours.
