*Horizons Regional Council's Planning Officer's Report on
Submissions to the Proposed One Plan – Landscapes and
Natural Character*

SUMMARY OF SUBMISSIONS ON LANDSCAPES AND NATURAL CHARACTER

The following tables summarise the matters raised in submissions that relate to Landscapes and Natural Character (in Chapter 7 of the Proposed One Plan). The heading for each group of submissions corresponds to the report chapter headings 4.1 to 4.26. For each group of submissions, the table presents the following information:

Submitter	Number	Point	Decision Sought	Recommendation
Submitter's name	Submission Number allocated by Horizons Regional Council	Number assigned to each individual submission point	The relief requested in the submission	The report's recommendation to accept, accept in part, or reject all of the requested relief

Submitter	Number	Point	Decision Sought	Recommendation
N Z WINDFARMS LTD	308	5	<p>In terms of the structure of the Plan, this (submission decision points 308/2 - 4) would require consideration of a "sieve" based activity structure, that incorporates the enabling policy inherent in the RMA and NZES in relation to renewable energy production (Section 7 'other matters'), against the backdrop of the protection of outstanding natural features and landscapes from inappropriate subdivision, use and development.</p> <p>In this light it would be suggested that wind farms located within semi-modified natural features and landscapes should be subject to compatibility with matters such as height, ecological protection, and colour. Applications for the siting of such proposals in other locations would then be treated by separate provisions.</p>	Reject
	X 527	31	TARARUA - AOKAUTERE GUARDIANS INC (T A G) - Oppose	Accept
N Z WINDFARMS LTD	308	6	<p>No decision requested but the following point is made</p> <p>It is considered that a determination of the status of windfarms within the Proposed One Plan as not appropriate forms of development, would not be in accordance with the enabling function of the RMA to provide, and give effect to policy led initiatives incorporated within the Draft New Zealand Energy Strategy, and the provisions contained in Chapter 3 of the Proposed One Plan.</p>	Accept In Part
	X 511	310	TRUST POWER LIMITED - Support	Accept In Part

GRANT JOHN STEPHENS	369	59	<p>That the ranges be classified as regionally significant - including the foot hills and ALL of the ranges and foothills be protected.</p> <p>Good governance & community representation is also mentioned on the back of your invoices - it does not say - good governance and community representation for parts of horizons - it is for all parts.</p>	Reject
	X 522	172	MERIDIAN ENERGY LIMITED - Oppose	Accept
DENISE LORRAINE STEPHENS	370	1	<p>That the ranges be classified as regionally significant, including the foot hills and be protected. This is our skyline and our "horzions". A regional council must protect our environment and do so actively. To do anything less is an abdication of Horizons' responsibility. See TAG submission for detailed wording.</p>	Reject

4.17 Schedule F Regional Landscapes General

Note: Submission 440/45 is entered in the Horizons POP Submission database under "Schedule E: Indigenous Biological Diversity Figure E1: Map of the Manawatu-Wanganui Region with Water Management Zones coloured to indicate criteria" because the submitter specified Schedule E in the submission, however, the submission clearly discusses Schedule F, hence Submission Point 440/45 is included in the following table.
