I/we could or could not (select one) gain an advantage in trade competition through this submission
I/we could not

I/we am or am not (select one) directly affected by an effect of the subject matter of the submission that adversely affects the environment and does not relate to trade environment or the effect of trade competition

The specific provisions of the proposal that my/our submission relates to are as follows (please list the provision (policy or rule number) or part provision)

My submission relates to all of the provisions of Plan Change 2 (PC2) and how it fits within the overall One plan.

My/our submission is (state in summary the nature of your submission. Clearly indicate whether you support or oppose the specific provisions or wish to have amendments made, giving reasons)

1)I support the framework of table 14.2 and the inherent transparent allocation of scarce resource across entire catchments. I support the need to include updates of overseer to accurately assess compliance with table 14.2 but I do not support these particular updated values in table 14.2 and particularly not as a region wide threshold value. There is considerable uncertainty about the intensity, duration and spacial location of consents already granted and this will obviously impact on any new thresholds set in table 14.2. 2) I support good management practices within the values stated in table 14.2 but oppose these same practices when used to justify intensity of environmental impact beyond these levels. 3)I support the addition of a policy and rule stream to allow non-intensive land uses to opt in to the formal resource allocation framework (see pages 5-77, 5-78 of 2012 decisions from the Environment Court) 4)I support the introduction of a nutrient traceability policy and rule to help reduce the economic cost of PC2 (see pages 5-77, 5-78 of 2012 decisions from the Environment Court). 5)Following the actions of Council in granting restricted discretionary consents, I no longer consider this level of consent is adequate or sufficiently transparent and that all consents granted should be searchable by the public on a publicly available database.

Upload additional pages of your submission here

I/we seek the following decision from the Manawatū-Whanganui (Horizons) Regional Council (please give precise details)
I seek the consequential relief to address my submission.

I/we wish/do not wish (select one) to be heard in support of my submission
I/we wish to speak in support of my submission

If others make a similar submission I/we will or will not (select one) consider presenting a joint case with them at a hearing
I/we will
