

Glossary

Explanation of changes:

- All recommended changes are shown in relation to the notified version of the Glossary. Recommended additions are shown by underlining text, and recommended deletions are shown by ~~striking through text~~.
- Changes that have been made in response to the Chairperson's Minute #3 are cited.

Coastal foredune means a dune or ridge that is parallel to the shoreline of the ocean on the west coast, the strip of land and includes all land between the boundary of the coastal marine area and a line roughly parallel with the beach extending 200 metres inland of the first line of vegetation. [Chairperson's Minute #3 Point 56]

~~**Coastal Highly Erodible Land** means land mapped as Coastal Highly Erodible Land in Schedule A.~~ [Chairperson's Minute #3 Point 16]

Coastal Erosion Management Area means the Coastal Erosion Management Area shown in Schedule A. [Chairperson's Minute #3 Point 16]

Cultivation means the disturbance of soil in preparation for the planting of seeds or plants. It includes ploughing, discing, hoeing, ripping, turning and lifting. It excludes production forestry activities, harrowing, direct drilling of seed and no-tillage practices.

Environmental Management System means a document that includes, but is not limited to, organisational structure, responsibilities of staff and management, practices, procedures, processes and resources for developing, implementing, achieving, reviewing and maintaining the organisation's methods for managing adverse environmental effects of its activities.

Erosion and Sediment Control Plan means a plan developed in accordance with the Erosion and Sediment Control Guidelines for the Wellington Region, 2002 (which shall be read as if the Guidelines apply to the Manawatu-Wanganui Region). The plan shall prescribe how the nine principles of erosion and sediment control described in Section 3 of the Guidelines shall be addressed for the land disturbance activity. [Chairperson's Minute #3 Point 48]

~~**Highly Erodible Land (HEL)** means land mapped as highly erodible land in Schedule A and includes both coastal highly erodible land and hill country highly erodible land. [Chairperson's Minute #3 Point 16]~~

~~**Hill country Highly Erodible Land** means land mapped as hill country highly erodible land in Schedule A. [Chairperson's Minute #3 Point 16]~~

Hill Country Erosion Management Area means the Hill Country Erosion Management Area shown in Schedule A. [Chairperson's Minute #3 Point 16]

~~**Land disturbance** means the disturbance of the land surfaces surface by any means including blading, blasting, contouring, cutting or filling of batters, excavation, ripping, root raking, or otherwise moving or removing soil or earth. This definition excludes normal maintenance or legally established structures, roads, tracks and railway lines. [Chairperson's Minute #3 Points 31, 56]~~

~~**Maintenance and repair**, in relation to structures, means to keep or restore a structure to good condition and includes the reconstruction or alteration of part of a structure, all activities associated with keeping a structure in good condition, or restoring a structure to good condition, provided that the activity:~~

- ~~(a) The maintenance Does not result in any increase in the base area of the structure; and~~
- ~~(b) The activity Does not change the character, scale or intensity of any effects of the structure on the environment (except to reduce any adverse effects or increase any positive effects).~~

~~Activities covered by this definition include:~~

- ~~(c) The reconstruction, alteration, removal or demolition of part of a structure;~~
- ~~(d) Trimming and removal of vegetation for the purpose of maintaining the functional integrity of a structure;~~
- ~~(e) The erection and removal of temporary structures;~~
- ~~(f) The maintenance of access to structures.~~

~~This definition includes the maintenance of tracks as if they were structures.~~

~~[Chairperson's Minute #3 Point 34]~~

Production forestry means a forest of selected species of trees that are specifically planted, managed and harvested for the production of timber or other wood-based products, and includes understorey that has established beneath the canopy and areas that are demonstrated to be failed plantings from the previous rotation.

Repair (see "Maintenance and repair")

Upgrade, in relation to structures, means all activities associated with improving the function of a structure provided the activity:

- (a) Does not result in any increase in the base area of the structure; and
- (b) Does not change the character, scale or intensity of any effects of the structure on the environment (except to reduce any adverse effects or increase any positive effects).

Activities covered by this definition include:

- (c) The reconstruction, alteration, removal or demolition of part of a structure;
- (d) Trimming and removal of vegetation for the purpose of improving the functional integrity of a structure; and
- (e) The erection and removal of temporary structures.

This definition includes the upgrade of tracks as if they were structures.

[Chairperson's Minute #3 Point 34]

Vegetation clearance means the cutting, crushing, spraying, burning or other means of removal of vegetation, including indigenous and exotic plants. ~~It does not include:~~

- ~~(a) Grazing;~~
- ~~(b) Pruning or thinning operations associated with production forestry;~~
- ~~(c) The control of pest plants as defined in the Regional Pest Plant Management Strategy. [Chairperson's Minute #3 Point 31]~~

~~**Whole Farm Business Plan** refers to a work plan or farm plan that has been lodged with Horizons Regional Council and must contain information on:~~

- ~~(a) any proposed future planting for erosion control~~
- ~~(b) any proposed future tracking~~
- ~~(c) any proposed future vegetation clearance~~
- ~~(d) a programme or work plan for implementing required changes, and~~
- ~~(e) monitoring and reporting requirements.~~

~~[Chairperson's Minute #3 Point 18]~~

Woody vegetation means perennial vegetation that has hard lignified tissues.
