

Biodiversity Hearing

23 January 2009

Photo presentation:
Areas of habitat and non-habitat in relation to
Schedule E

Horowhenua: Small swamp forest (<1 ha), current condition less than optimal. Brown mudfish habitat.

- Schedule E habitat type: Swamp wetland (threatened).
- ✓ Fenced and receives pest control under non-regulatory programme.

Wanganui: Scattered areas of habitat and scattered trees (non-habitat).

- Schedule E habitat type: Hardwood/broadleaved forest (threatened)

- Landscape connections

- ✓Fenced and receives pest control under non-regulatory programme.

Ruapehu: Typical fragment, scattered trees

- Schedule E habitat type Hall's totara/broadleaf forest (At Risk)
- ✓ Fenced under non-regulatory programme.

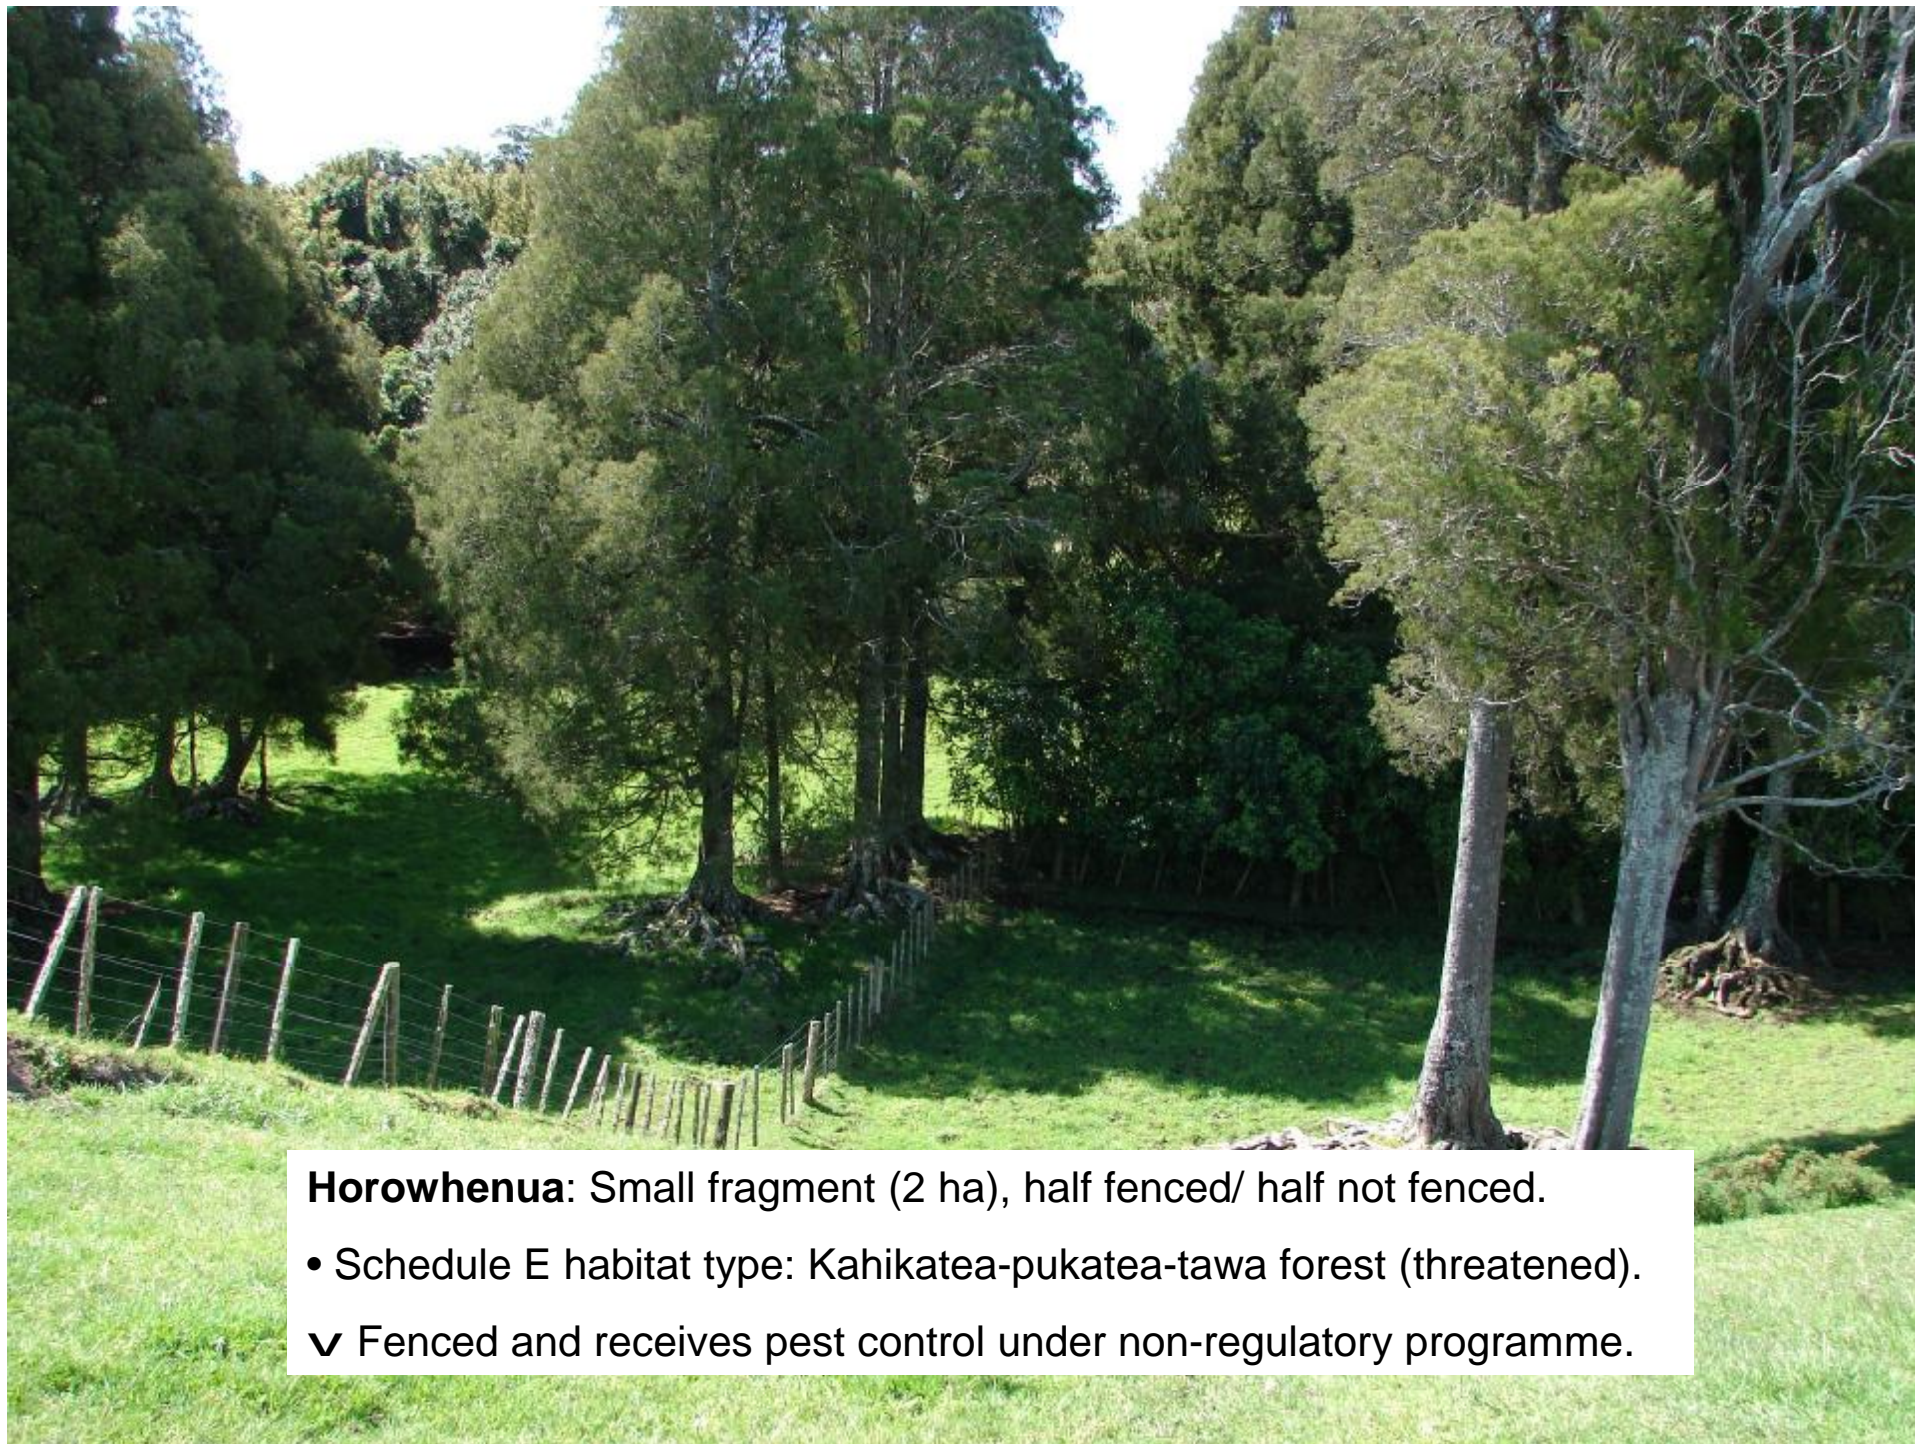

Manawatu: Wetland

- Schedule E habitat type: swamp wetland (threatened).
- ✓ Fenced and receives pest control under non-regulatory programme.

Wanganui: Wetland

- Schedule E habitat type: swamp wetland (threatened).
- ✓ Fencing and pest control planned under non-regulatory programme.

Horowhenua: Small fragment (2 ha), half fenced/ half not fenced.

- Schedule E habitat type: Kahikatea-pukatea-tawa forest (threatened).
- ✓ Fenced and receives pest control under non-regulatory programme.

Horowhenua: Unfenced half of 2 ha fragment

- Schedule E habitat type: Kahikatea-pukatea-tawa forest (threatened).

Horowhenua: Fenced half of small fragment (2 ha)

- Schedule E habitat type: Kahikatea-pukatea-tawa forest (threatened).
- ✓ Fenced and receives pest control under non-regulatory programme.

Tararua: Area of habitat in foreground, vegetation in background doesn't meet Table E.2 criteria

- Schedule E habitat type: Podocarp/kamahi forest (threatened).
- ▼ Fenced and receives pest control under non-regulatory programme.

Wanganui: Habitat type not listed (regeneration forest)

- No rules apply under Schedule E

- ▼ Pest control, fencing planned under non-regulatory programme.

Wanganui: Habitat type not listed (ex-wetland habitat)

- No rules apply under Schedule E

✓ Fencing and replanting under non-regulatory programme. Links to forest fragment.

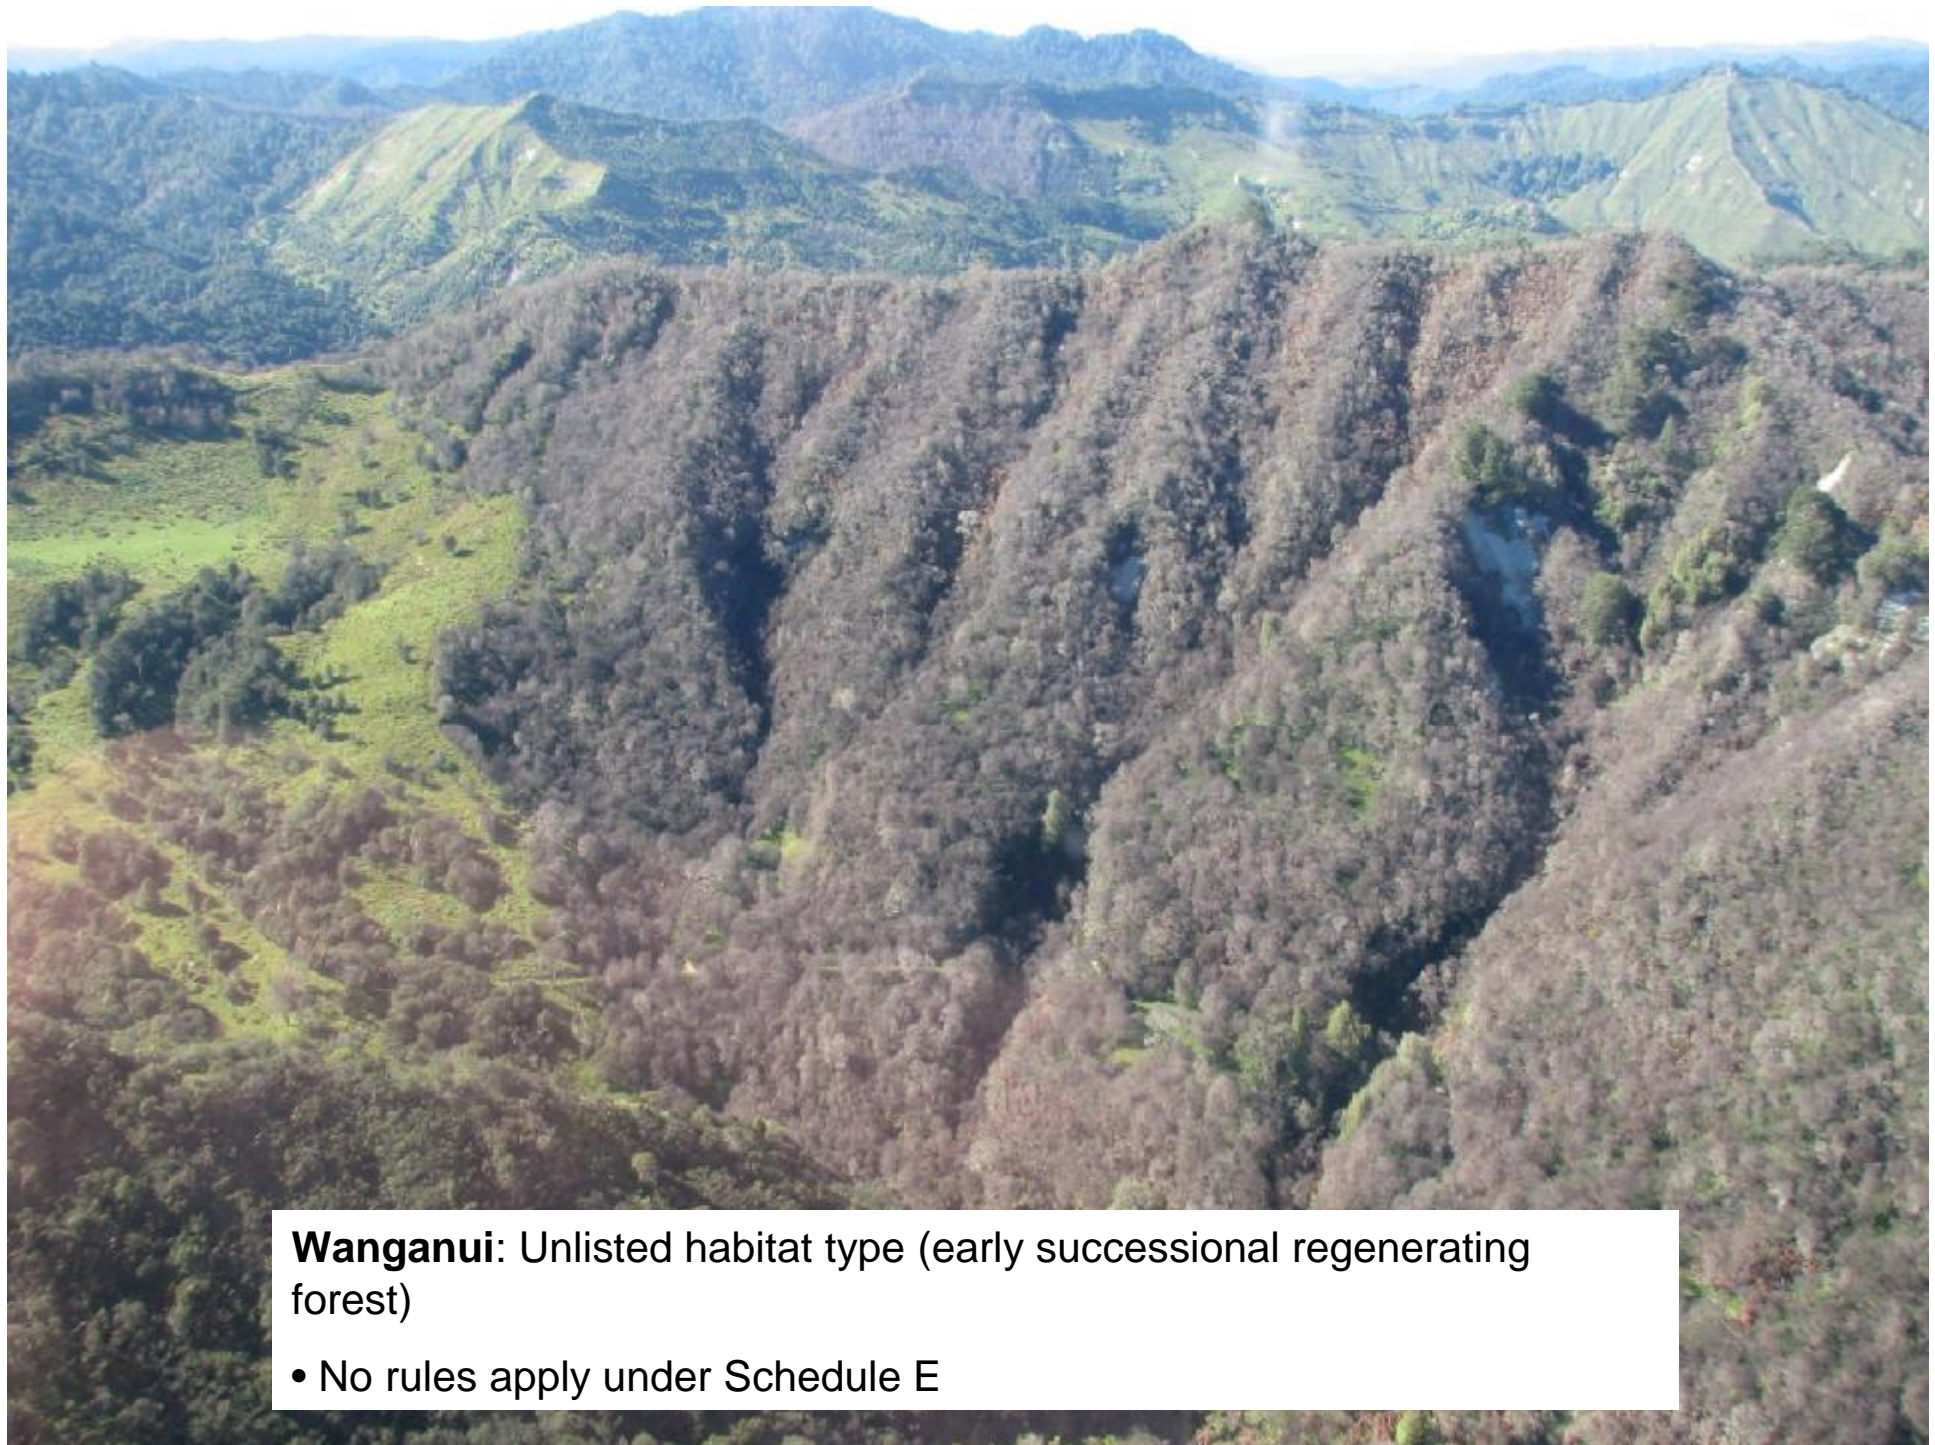

Manawatu: Unlisted habitat type (manuka scrub)

- No rules apply under Schedule E

Wanganui: Unlisted habitat type (early successional regenerating forest)

- No rules apply under Schedule E

Wanganui: Unlisted habitat type (early successional regenerating forest)

- No rules apply under Schedule E
