

RCP – CMA – Coastal Marine Area

Important note: For the purposes of the RMA, the Regional Coastal Plan comprises RCP-CMA, RCP-CZ, RCP-CP and RCP-SCHED9 as well as RP-IO, RP-IP and RP-FC and the relevant definitions in Part 1. The *coastal marine area*[^] (CMA) is as defined in the RMA.

In this chapter:

1. MHWS means mean high water springs.
2. NZCPS means any New Zealand Coastal Policy Statement.
3. NZCPS 1994 means the document “New Zealand Coastal Policy Statement 1994”.

Objectives

CMA-O1: Activities in the CMA

The regulation of activities in the CMA in a manner that enables or restricts activities within the Port, Protection, or General Zones or Aquaculture Precincts, in a way that reflects the Table 49 characteristics of the Zones.

CMA-O2: *Water*^{*} quality in the CMA

Water^{*} quality in the CMA is managed in a manner that sustains its life-supporting capacity and has regard to the Values, management objectives and the *water*^{*} quality targets set out in RCP-SCHED9: Part C.

Policies

CMA-P1: *Regional rules*[^] for the CMA

The Regional Council must regulate activities in the CMA through *regional rules*[^] in accordance with RP-IO-O1, RP-IO-O2, RCP-CMA-O1 and RCP-CMA-O2 and RP-IP-P1 to RP-IP-P8.

General conditions for permitted activities and controlled activities in the CMA

The table below sets out general conditions referred to in a number of the permitted activities and controlled activities in the CMA. These general conditions are referred to in a number of the permitted activity and controlled activity rules in this chapter.

Table 10 - General conditions[^] for permitted activities[^] and controlled activities[^] in the CMA

CMA – OCC – Occupation

Policies

CMA-OCC-P2: *Occupation*[^] of *space*[^] by aquaculture

The allocation of *space*[^] for aquaculture must be established through a plan *change*[^], and regard must be had to the following matters when evaluating a proposed *change*[^]:

1. giving effect to the Regional Policy Statement, particularly all the objectives and policies of RPS-RMIA and RPS-CE, RPS-EIT-O1 and RPS-EIT-P1, RPS-EIT-P2, RPS-EIT-P 3, RPS-EIT-P4 and RPS-EIT-P5, RPS-NATC-O1 and RPS-NFL-P1 and any relevant policies in the NZCPS;
2. the impact of the proposed activity on neighbouring uses, the Protection Zone set out in RCP-SCHED9 and the ecological carrying capacity of the area;
3. the type and location of any *land*^{*} use facilities that would be required;
4. the *effects*^{*} on navigation safety, public access, natural character and marine ecosystems; and
5. available alternatives to the applicant's proposal and the applicant's reason for making the proposed choice.

CMA-OCC-P3: Consent decision-making for *occupation*[^] of *space*[^] by activities other than aquaculture

When making decisions on *resource consent*[^] applications and setting consent *conditions*[^] for the allocation of *space*[^] for activities (excluding aquaculture), the Regional Council must have regard to:

1. the Regional Policy Statement, particularly all the objectives and policies of RPS-RMIA and RPS-CE, RPS-EIT-O1, RPS-EIT-O2 and RPS-EIT-P1, RPS-EIT-P2, RPS-EIT-P 3, RPS-EIT-P4 and RPS-EIT-P5, RPS-NATC-O1 and RPS-NFL-P1 and any relevant policies in the NZCPS;
2. enabling *occupation*[^] where it is a *functional need*^{*} of an activity covered by another *rule*[^] in this chapter;
3. requiring efficient use of *space*[^] in the CMA by using the smallest amount of *space*[^] reasonably practicable for the activity and limiting the adverse *effects*^{*} on public access to the *space*[^];
4. the *effects*^{*} on navigation safety, natural character and marine ecosystems;
5. requiring a plan *change*[^] pursuant to s165D of the RMA where there is demand for use of the same *space*[^] or different *spaces*[^] in close proximity by more than one party and a first-in-first-served consent process will not adequately manage the cumulative *effects*^{*} of the proposed activities; and
6. available alternatives to the applicant's proposal and the applicant's reason for making the proposed choice.

CMA-OCC-P4: Decision-making for *occupation*[^] charges

In accordance with s64A RMA the Regional Council, after having regard to:

1. the extent to which public benefits from the CMA are lost or gained; and
2. the extent to which private benefit is obtained from the *occupation*[^] of the CMA, has decided that a coastal *occupation*[^] charging regime should not be applied to persons who *occupy*[^] any part of the CMA.

Rule Guide:

1. Any occupation of the CMA that is not specifically regulated by any of the rules in this chapter or that does not comply with one or more conditions, standards or terms of a permitted or controlled activity rule, but which is not expressly classified as a discretionary, non-complying or prohibited activity is a **discretionary activity** under RCP-CMA-R29.
2. Any occupation relating to or impacting on safe navigation must also have approval from Maritime New Zealand.
3. For any Aquaculture Precincts, reference should be made to the Guidelines for Aquaculture Management Areas and Marine Farms, Maritime New Zealand, 2005.
4. Any activity covered by RCP-CMA-OCC-R2 must also comply with relevant navigation safety requirements set out in The Manawatū River and Tributaries Navigation and Safety Bylaws 2010 or Part 91 of the Maritime Rules under the Maritime Transport Act 1994.

3. *Structures** under s12 RMA that do not comply with the permitted or controlled rules and are not otherwise discretionary or prohibited are a **discretionary activity** under RCP-CMA-R29.
4. *Structures** may also require a building consent under the Building Act 2004.
5. Any *structure** relating to or impacting on safe navigation must also have approval from Maritime New Zealand.
6. For any aquaculture *structure**, reference should be made to the Guidelines for Aquaculture Management Areas and Marine Farms, Maritime New Zealand, 2005.
