

## RP – SCHED3 – Surface *water\** quantity

RP-SCHED3 only applies to *rivers\**.

### How to use the contents of this schedule:

**Step 1:** Identify which *Water Management Sub-area\** your proposed abstraction lies in (go to RP-SCHED1).

**Step 2:** Refer to Table 37 to identify which cumulative core allocation limits and minimum flows apply to your *Water Management Sub-area\**.

### Advice Note:

In accordance with RPS-LF-FW-P18(2), the taking of *water\** for hydroelectricity generation that was lawfully established as at 31 May 2007 falls outside the cumulative core allocation limits and minimum flows in this Schedule.

The cumulative core allocation in any *Water Management Sub-area\** is only available where:

1. the point of take is downstream of the locations described in Table 38 which identifies the location of infrastructure related to existing hydroelectricity generation schemes, or
2. the point of take is upstream of the locations described in the Table 38 and the quantity of *water\** to be taken is no more than was lawfully allocated to be taken upstream of those locations as at 31 May 2007.
