

Glossary

A term or expression that is defined in this glossary is marked with the symbol * when used in the Plan.

A term or expression that is defined in the Resource Management Act 1991 (RMA) and used in ~~this~~ the Plan, but which is not included in this glossary, has the same meaning as in the ~~Act~~ RMA. Definitions provided in the RMA are not repeated in this glossary. A term or expression that is defined in the RMA is marked with the symbol ^ when used in the objectives, policies or rules of the Plan, this glossary and the schedules to the Plan, other than Schedules F, G and I.

When:

- * is not used to identify a term anywhere in the Plan, or
- ^ is not used to identify a term in the objectives, policies or rules of the Plan, this glossary or the schedules to the Plan
the term has its ordinary meaning.

Abrasive blasting means the cleaning, smoothing, roughening, cutting or removing of part of the surface or any article by the use of a jet of sand, metal shot, grit or any other abrasive material propelled by a blast of compressed air or mechanically via a rotary wheel, impeller or other means.

[General Hearing]

Abundant means, for the purposes of Schedule E and this glossary, species that contribute more than most other species to the composition of an area of interest, but are not the *dominant** species. This is a measure of the contribution to an area of interest (eg., the same habitat type or forest tier) of a species in relation to other species in the same area, and is not simply a frequency count as both biomass and density of a given species are considered.

[Biodiversity and Heritage Hearing]

Accelerated erosion means erosion which is caused or accelerated by human activity.

[Land Hearing]

Active bed means the *bed*[^] of a *river*[^] that is intermittently flowing and where the *bed*[^] is predominantly unvegetated and comprises sand, gravel, boulders or similar material.

[Land Hearing]

Agrichemical means any substance, whether inorganic or organic, human-made man-made or naturally occurring, modified or in its original state, that is used to eradicate, modify or control flora and fauna. For the purposes of this Plan, it includes agricultural compounds agrichemicals do not include animal remedies, but excludes *fertilisers*^{*}, fumigants, or sanitisers vertebrate pest control products and oral nutrition compounds.

[General Hearing]

Ambient air means air outside buildings or *structures*[^]. This ~~and~~ does not in any way refer to indoor air, or to air in a workplace, or discharges of contaminants to air that are authorised by a resource consent.

[General Hearing]

Animal effluent means faeces and urine from animals other than humans, including associated process water, washdown water, contaminants and sludge, excluding *poultry farm litter*^{*}.

[Water Hearing]

Association means, for the purposes of Schedule E, a species, or group of species, landform or soil type occurring in space together. Associations can be observed in geographical pattern across the landscape, or in distinctive community groupings.

[Biodiversity and Heritage Hearing]

Artificial watercourse means a continually or intermittently flowing body of fresh water[^] that does not meet the definition of river[^] in s2 of the RMA. For the purposes of this Plan, it includes an irrigation canal, water[^] supply race, canal for the supply of water[^] for hydroelectricity power generation and farm drainage canal; but excludes a non-natural lake[^].

[Water Hearing]

At-risk habitat means: an area determined to be an at-risk habitat in accordance with Schedule E and, for the avoidance of doubt, excludes any area in Table E.2(b).

- ~~(a) an area of indigenous vegetation of a type identified in Table E1 as being at risk, and which meets the criteria described in Table E2 for determining whether an area of indigenous vegetation constitutes a habitat for the purposes of this plan~~
- ~~(b) any vegetation (whether indigenous or not) within 20 metres of an area identified in Schedule D as being a site of significance – aquatic~~
- ~~(c) any vegetation (whether indigenous or not, and including No Threat category habitat types identified in Table E1) that contains, or could be reasonably known to contain, threatened plant and/or animal species as identified in Table E3.~~

[Biodiversity and Heritage Hearing]

Basel Convention means the Convention of the Control of Transboundary Movements of Hazardous Wastes and Their Disposal, held at Basel on 22 March 1989.

[General Hearing]

Biofuels means fuel consisting of a range of biological material derived from plant or animal sources including fats, oils and their derivatives, animal manure, waste* plant material, wood waste*, and waste* treatment plant solids.

[General Hearing]

Biosolids means a sewage or sewage sludge, derived from a sewage treatment plant, that does not include animal effluent* or products derived from industrial wastewater treatment plants, and that has been treated and/or stabilised to the extent that it is able to be safely and beneficially applied to land[^].

[Water Hearing]

Bore means any hole, regardless of the method of formation, that: ~~has been constructed to provide access to the ground – eg., groundwater monitoring, extraction of groundwater or waste disposal.~~

- (a) is created for the purpose of accessing groundwater, oil* or gas; or
- (b) is created for the purpose of exploring water[^], oil* or gas resources excluding piezometers installed for monitoring purposes.

[Water Hearing]

Boulderfield means, for the purposes of Schedule E, land[^] in which the area of unconsolidated bare boulders (greater than 200 mm diameter) exceeds the area covered by any one class of plant growth form. Boulderfields are named from the leading plant species when plant cover is 1% or greater.

[Biodiversity and Heritage Hearing]

Broadleaved means, for the purposes of Schedule E, *woody tree** and *shrub** species which flower, excluding the beech species. Common examples of species referred to as broadleaved include, but are not limited to, kamahi, titoki, fuchsia, maire, hinau, tawa, mahoe, and *Coprosma* species. Broadleaved includes the term “broadleaf”, which is specific and refers to *Griselina littoralis* or *Griselina lucida*.

[Biodiversity and Heritage Hearing]

Buffer zone refers to the use of agrichemicals and potentially odorous discharges and is the distance between the downwind edge of an area where the activity is undertaken and sensitive land uses.

[General Hearing]

Canopy means the highest level of foliage within an area of habitat type excluding any emergent individuals. The height of the canopy layer will vary with the structure of the vegetation.

[Biodiversity and Heritage Hearing]

Chimney means any *structure*[^] or opening designed for venting the airborne products of combustion.

[General Hearing]

Cleanfill means a *landfill** that accepts only *cleanfill material** that, when buried or placed, will not have an adverse effect on the environment. Cleanfill materials include virgin materials such as clay, soil and rock, and other inert materials such as concrete or brick that are free of:

- (a) ~~combustible, putrescible (except that cleanfill may contain up to 5% by weight putrescible matter), degradable or leachable components~~
- (b) ~~hazardous substances~~
- (c) ~~products or materials derived from hazardous waste treatment, hazardous waste stabilisation or hazardous waste disposal practices~~
- (d) ~~materials that may present a risk to human health~~
- (e) ~~liquid waste.~~

[General Hearing & Water Hearing]

Cleanfill material means materials such as clay, soil and rock, and other inert materials such as concrete or brick that are free of:

- (a) combustible, putrescible (except that *cleanfill material** may contain up to 5% by weight putrescible matter), degradable or leachable components
- (b) *hazardous substances**
- (c) products or materials derived from *hazardous waste** treatment, *hazardous waste** stabilisation or *hazardous waste** disposal practices
- (d) materials that may present a risk to human health
- (e) *liquid waste**.

[General Hearing & Water Hearing]

Coastal foredune means the strip of *land*[^] between the *coastal marine area*[^] and a line roughly parallel with the beach, extending 200 metres inland of the first line of vegetation.

[Coast Hearing & Land Hearing]

COASTAL FOREDUNE AREA

~~**Coastal Highly Erodible Land** means land mapped as Coastal Highly Erodible Land in Schedule A.~~
[Land Hearing]

Common means, for the purposes of Schedule E and this glossary, species that contribute more to the composition of an area of interest than species that are scattered* or occasional*, but less than species that are abundant* or dominant*. This is a measure of the contribution to an area of interest (eg., the same habitat type or forest tier) of a species in relation to other species in the same area, and is not simply a frequency count as both biomass and density of a given species are considered.

[Biodiversity and Heritage Hearing]

Common catchment expiry or review date means the date set in Table 11A.1 Part II (Regional Plan) of the One Plan for when all consents within a Water Management Zone* are to be reviewed or to expire.

[General Hearing]

Composting (or compost) ~~refers~~ means to the biological treatment or decomposition of organic material under controlled conditions to produce a stabilised product which is potentially beneficial to plant growth with compost as the resulting material.

[Water Hearing]

Contaminated land means land which:

- (a) ~~if there is an applicable national environmental standard on contaminants in soil, is more contaminated than the standard allows~~
- (b) ~~if there is no applicable national environmental standard on contaminants in soil, has a hazardous substance* in or on it that:~~
 - (i) ~~has significant adverse effects on the environment, or~~
 - (ii) ~~is reasonably likely to have significant adverse effects on the environment.~~

[General Hearing]

Continuous means, for the purposes of Schedule E and this glossary, that an area of habitat type has no interruption of continuity or conspicuous gaps, allowing for small, infrequent canopy* gaps (eg., tree* fall gaps).

[Biodiversity and Heritage Hearing]

Critical infrastructure means *infrastructure*[^] necessary to provide services which, if interrupted, would have a serious *effect*[^] on the people within the Region or a wider population, and which would require immediate reinstatement. *Critical infrastructure*^{*} includes *infrastructure*[^] for:

- (a) electricity substations
- (b) the treatment and storage of *water*[^] for public supply (excluding the distribution network)
- (c) the management of human ~~sewerage~~ sewage treatment (excluding the reticulation system)
- (d) strategic road and rail networks (as defined in the Regional Land Transport Strategy)
- (e) health care institutions including hospitals.

[General Hearing]

~~**Cropping** refers to properties greater than 4 ha mainly engaged in growing cereal, coarse grains, oilseed, peanuts, lupins, dry field peas or dry field beans. This does not include occasional use of land for these crops or growing of fodder crops which are to be used on the property.~~

[Water Hearing]

Cultivation means preparing *land*[^] for growing pasture or a crop and the planting, tending and harvesting of that pasture or crop, but excludes:

- (a) direct drilling of seed
- (b) no-tillage practices
- (c) recontouring *land*[^]
- (d) *forestry*^{*}
- (e) the clearance of *woody vegetation*^{*} and *new tracking*^{*} in a Hill Country *Erosion Management Area*^{*}.

[Land Hearing]

Cumulative nitrogen leaching maximum means the total kilograms of nitrogen leached per hectare per year for the total area of a farm (including any *land*[^] not used for grazing) and is calculated using the values for each *land use capability class*^{*} specified in Table 13.2.

[Water Hearing]

Cushionfield means, for the purposes of Schedule E, an area of vegetation in which the cover of cushion plants in the *canopy*^{*} is 20-100% and in which the cushion plant cover exceeds that of any other growth form or bare ground. Cushion plants include *herbaceous*^{*}, semi-woody and woody plants with short densely-packed branches and closely-spaced leaves that together form dense hemispherical cushions. The growth form occurs in all species of *Donatia*, *Gaimardia*, *Hectorella*, *Oreobolus*, and *Phyllachne* as well as in some species of *Achiphyllo*, *Celmisia*, *Centrolepis*, *Chionohebe*, *Colobanthus*, *Dracophyllum*, *Kelleria*, *Haastia*, *Leucogenes*, *Luzula*, *Myosotis*, *Poa*, *Raoulia*, and *Scleranthus*.

[Biodiversity and Heritage Hearing]

~~**Dairy farming** refers to properties~~ means using any area of *land*[^] greater than 4 ha_± ~~and mainly engaged in~~ for the farming of dairy cattle for milk production. This includes *land*[^] used as a dairy cattle grazing runoff but excludes any dairy grazing arrangement. A dairy grazing arrangement is a third party commercial arrangement between the owner of dairy cattle and another landowner for the purpose of temporary grazing.

[Water Hearing]

~~**dbh** means diameter at breast height, measured as the diameter of a tree trunk at 1.4 m above the ground.~~

[Biodiversity and Heritage Hearing]

Dead animal matter means any substance derived from the tissue, bones or blood of animals or fish, whether processed or not.
[Water Hearing]

Discontinuous means, for the purposes of Schedule E and this glossary, that an area of habitat type is not *continuous** and has distinct interruptions or conspicuous gaps, excluding those gaps created by *tree** fall.
[Biodiversity and Heritage Hearing]

Domestic wastewater ~~refers to~~ means wastewater and greywater generated on the *property** from toilets, urinals, kitchens, bathrooms, showers, baths, basins, water closets and laundries. It includes such wastewater flows from facilities serving staff/employees/residents in institutional, commercial and industrial establishments and small schools (under 2,000 l/d), but excludes commercial and industrial *wastes**, large-scale laundry activities and any stormwater flows.
[Water Hearing]

Dominant (or dominated) means, for the purposes of Schedule E and this glossary, species that contribute more than any other species to the composition of an area of interest. Dominant species are the most characteristic species of the area of interest or habitat type. This is a measure of the contribution to an area of interest of a species in relation to other species in the same area, and is not simply a frequency count as both biomass and density of a given species are considered.
[Biodiversity and Heritage Hearing]

Duneland means, for the purposes of Schedule E, areas where the landform is characterised by sand dunes (active or stable).
[Biodiversity and Heritage Hearing]

Endemic ~~refers to~~ means a species that is indigenous only to a certain area – eg., the Manawatu-Wanganui Region of New Zealand.
[Biodiversity and Heritage Hearing]

Energy efficiency means a change to energy use that results in an increase in the net benefits per unit of energy.
[General Hearing]

Erosion and Sediment Control Plan means a plan prepared in accordance with the “Erosion and Sediment Control Guidelines for the Wellington Region” dated September 2002.
[Land Hearing]

Feedpad means an area of artificially sealed *land*[^] used principally for feeding animals.
[Water Hearing]

Fernland means, for the purposes of Schedule E, an area of vegetation in which the cover of ferns in the *canopy** is 20-100% and in which the fern cover exceeds the cover of any other growth form or bare ground. Tree ferns 10 cm diameter or greater at 1.4 m above the ground are excluded from this definition and are *trees**.
[Biodiversity and Heritage Hearing]

Fertiliser means any substance or mix of substances that is described as or held to be suitable for sustaining or increasing the growth, productivity or quality of plants (or animals indirectly) through the application to plants and soils of:

- (a) the following major nutrients: nitrogen, phosphorus, potassium, sulphur, magnesium, calcium, chloride and sodium
- (b) the following minor nutrients: manganese, iron, zinc, copper, boron, cobalt, molybdenum, iodine and selenium
- (c) non-nutrient attributes of the materials used in fertiliser
- (d) fertiliser additives

(e) gypsum and lime

but does not include *biosolids**, ~~or dead animal matter~~ *animal effluent**, *soil conditioners** or *poultry farm litter**.

[Water Hearing]

Fire training means training undertaken by:

- (a) the New Zealand Fire Service (or under authority of), or
- (b) any Rural Fire Authority (or under authority of), or
- (c) a New Zealand Qualification Authority registered provider accredited for fire training, or
- (d) the New Zealand Defence Force Fire Service (or under the authority of), including the School of Military Engineering.

[General Hearing]

Flaxland means, for the purposes of Schedule E, a subclass of *tussockland** where species of *Phormium* are dominant*.

[Biodiversity and Heritage Hearing]

Flood hazard avoidance means, for the purpose of Policy 10-2, either:

- (a) ensuring that structures and activities have a finished ground level, which includes a reasonable freeboard, above the 0.5% annual exceedance probability (1 in 200 year) flood level and which allows safe access to and from the structure or activity, or
- (b) ensuring flood control measures are in place that provide protection from the 0.5% annual exceedance probability (1 in 200 year) flood event and those measures are soundly designed and constructed such that there is minimal risk of the measures failing.

[General Hearing]

Floodway means an artificial flood control ~~waterway~~ channel which diverts part of the *river's*[^] flow from the *river*[^] during flood periods and which is identified by the maps in Schedule I.

[General Hearing]

Flow exceedance percentile means the *river*[^] flow in m³/s or l/s that is exceeded for the nominated percentage of time, eg, *river*[^] flow is higher than the 50th flow exceedance percentile for 50 percent of the time, but higher than the 20th flow exceedance percentile for only 20 percent of the time.

[Water Hearing]

Forest means, for the purposes of Schedule E and this glossary, an area of woody vegetation in which the *canopy*^{*} cover of *trees*^{*} and *shrubs*^{*} is more than 80% and in which *tree*^{*} cover exceeds *shrub*^{*} cover. ~~Trees are woody plants with a diameter at breast height (dbh) of more than 10 centimetres. Tree ferns with a dbh of more than 10 cm are treated as trees.~~

[Biodiversity and Heritage Hearing]

Forestry means all soil conservation forestry or *production forestry** activities including tracking, earthworks, *land*[^] preparation, planting, pruning, thinning, clearing understorey (indigenous and exotic species), and harvesting.

[Land Hearing]

Fumigant ~~means a substance used to eradicate, modify or control flora or fauna within an enclosed area or premises.~~

[General Hearing]

Grade Aa biosolids means a high quality biosolid* where the concentration of pathogen and vector attracting compounds has been reduced or removed to provide for contaminant^ concentrations that are at or below the levels specified in Table 4.4 of the Guidelines for the Safe Application of Biosolids to Land in New Zealand, New Zealand Water and Waste Association, August 2003, biosolids which meet the criteria for a grade Aa biosolids specified in the Guidelines for the Safe Application of Biosolids to Land in New Zealand, August 2003 (Ministry for the Environment and New Zealand Water and Waste Association).
[Water Hearing]

Grassland means, for the purposes of Schedule E, an area of vegetation in which the cover of grass in the canopy* is 20-100% and in which grass cover, excluding tussock grasses, exceeds the cover of any other growth form or bare ground. ~~Tussock grasses are excluded from the grass growth form.~~
[Biodiversity and Heritage Hearing]

Green waste means organic material including:

- (a) vegetative material, but not tree trunks or limbs larger than 100 mm diameter
- (b) vegetable peelings or trimmings, but no other kitchen wastes
- (c) soil attached to plant roots that may be physically modified but is otherwise in its natural state

but not including animal products (eg., manure, feathers, carcasses) other than as an occasional or incidental input.
[General Hearing & Water Hearing]

Groundwater Management Zone (GWMZ) means a Groundwater Management Zone as described in Schedule C.
[Water Hearing]

~~**Gully** means a landform created by running water eroding a hillside with the appearance of a deep ditch through to a small valley.~~
[Biodiversity and Heritage Hearing]

Halogenated in relation to hydrocarbons means hydrocarbons with fluorine, bromine, iodine or chlorine attached.
[General Hearing]

Hand-held appliance, for the purposes of the rules regulating the discharge^ of agrichemicals*, ~~refers to a knapsack sprayer, a non-motorised handgun sprayer or a sprayer with a rate and volume of application no greater than these devices~~ means an application technique or method for agrichemical* use where the application system is non-motorised and the spray being applied is directed only at the target species.
[General Hearing]

Hapū means a social, political unit comprised of whānau* (extended families) each recognising descent from a common ancestor.
[Te Ao Māori Hearing]

Hazardous substance means, unless expressly provided otherwise by regulations prepared under the Hazardous Substances and New Organisms Act 1996, or the Resource Management Act 1994 RMA, any substance:

- (a) with one or more of the following intrinsic properties:
 - (i) explosiveness
 - (ii) flammability
 - (iii) a capacity to oxidize
 - (iv) corrosiveness
 - (v) toxicity (including chronic toxicity)

- (vi) ecotoxicity, with or without bioaccumulation, and
- (b) which on contact with air or *water*[^] (other than air or *water*[^] where the temperature or pressure has been artificially increased or decreased) generates a substance with any one or more of the properties specified in paragraph (a) of this definition.

[General Hearing]

Hazardous waste means *waste*^{*} that:

- (a) belongs to one or more categories in Annex I of the *Basel Convention*^{*}, and
- (b) has one or more of the characteristics in Annex III of the *Basel Convention*^{*}.

Health care institution has the same meaning as in section §2(1) of the Health and Disability Commissioner Act 1994.

[General Hearing]

Heathland means, for the purposes of Schedule E, an area of vegetation dominated* by species that are slow-growing, stunted, with small, hard, scale-like or needle-like leaves with a thick waxy cuticle, and foliage that is flammable, resistant to decay, and produces acid litter. Heathland which occurs on wet substrates (eg., pakihī) comprises a mixture of *shrubland*^{*} or *treeland*^{*} with rush-like species, wire rush and ferns.

[Biodiversity and Heritage Hearing]

Herbaceous means, for the purposes of Schedule E and this glossary, ~~refers to~~ plant species that do not form woody tissue. Herbaceous species can be annual or perennial.

[Biodiversity and Heritage Hearing]

Herbfield means, for the purposes of Schedule E, an area of vegetation in which the cover of herbs in the *canopy*^{*} is 20-100% and in which the herb cover exceeds the cover of any other growth form or bare ground. Herbs include all *herbaceous*^{*} species.

[Biodiversity and Heritage Hearing]

High temperature hazardous waste incinerator means an incinerator that is designed and operated principally for burning *hazardous waste*^{*} at a temperature greater than 850°C as measured:

- (a) near the inner wall of the incinerator, or
- (b) at another point in the combustion chamber where the temperature is likely to represent the temperature in the incinerator.

[General Hearing]

~~**Highly Erodible Land (HEL)** means land mapped as highly erodible land in Schedule A and includes both coastal highly erodible land and hillcountry highly erodible land.~~

[Land Hearing]

~~**Hillcountry Highly Erodible Land** means land mapped as hillcountry highly erodible land in Schedule A.~~

[Land Hearing]

Hill Country Erosion Management Area means any area of *land*[^] with a pre-existing slope* of 28° or greater on which *vegetation clearance*^{*}, *land disturbance*^{*} *forestry*^{*} or *cultivation*^{*} is being or is to be undertaken.

[Land Hearing]

Infrastructure (in section 30 of the RMA) means:

- ~~(a) pipelines that distribute or transmit natural or manufactured gas, petroleum, or geothermal energy~~
- ~~(b) a network for the purpose of telecommunication as defined in section 5 of the Telecommunications Act 2001~~
- ~~(c) a network for the purpose of radiocommunication as defined in section 2(1) of the Radiocommunications Act 1989~~
- ~~(d) facilities for the generation of electricity, lines used or intended to be used to convey electricity, and support structures for lines used or intended to be used to convey electricity, excluding facilities, lines, and support structures if a person:

 - ~~(i) uses them in connection with the generation of electricity for the person's use, and~~
 - ~~(ii) does not use them to generate any electricity for supply to any other person~~~~
- ~~(e) a water supply distribution system, including a system for irrigation~~
- ~~(f) a drainage or sewerage system~~
- ~~(g) structures for transport on land by cycleways, rail, roads, walkways or any other means~~
- ~~(h) facilities for the loading or unloading of cargo or passengers transported on land by any means~~
- ~~(i) an airport as defined in section 2 of the Airport Authorities Act 1966~~
- ~~(j) a navigation installation as defined in section 2 of the Civil Aviation Act 1990~~
- ~~(k) facilities for the loading or unloading of cargo or passengers carried by sea, including a port related commercial undertaking as defined in section 2(1) of the Port Companies Act 1988~~
- ~~(l) anything described as a network utility operation in regulations made for the purposes of the definition of 'network utility operator' in section 166 of the RMA.~~

[General Hearing]

Indigenous means, for the purposes of Schedule E, vegetation comprised predominantly of indigenous species, but which may include *scattered** exotic species.

[Biodiversity and Heritage Hearing]

Intensive sheep and beef farming refers to properties greater than 4 ha mainly engaged in the farming of sheep and cattle, where the land grazed is irrigated.

[Water Hearing]

Interceptor system, in relation to *discharges*[^] of stormwater, means a facility designed into a stormwater management system with the purpose of:

- (a) preventing deliberate or accidental releases of any *hazardous substances**_^ in the stormwater system, or
- (b) in the event of stormwater contamination by a *hazardous substance**_^, reducing all such substances in the stormwater prior to *discharge*[^] to concentrations that will not result in contamination of either *water*[^] or sediments to such a degree that is likely to result in significant adverse *effects*[^] on *aquatic life*[^] or on the suitability of the *water*[^] for potable *water*[^] supply.

[Water Hearing]

Iwi means a political grouping comprised of several *hapū*^{*}, each recognising descent from a common ancestor(s). The *hapū*^{*} not only recognise genealogical ties but geographical, political and social ties. Today *iwi*^{*} are represented by many organisations, including trust boards, *rūnanga* and *iwi authorities*[^], but only in specific areas where the mandate to do so has been given by the constituent *hapū*^{*}.

[Te Ao Māori Hearing]

Iwi management plan means a relevant planning document recognised by an *iwi authority*[^] and lodged with the Regional Council.

[Te Ao Māori Hearing]

Kōiwi means human skeletal remains.

[Biodiversity and Heritage Hearing]

Land disturbance (see *Vegetation clearance*^{*}) means the disturbance of land surfaces by any means including blading, blasting, contouring, cutting of batters, excavation, ripping, root raking, moving or removing soil or earth. This definition excludes normal maintenance or legally established structures, roads, tracks and railway lines.

[Land Hearing]

Landfill means a *site*^{*} where *waste*^{*} is disposed of by burying it, or placing it upon *land*[^] or other *waste*^{*}, but excludes a farm dump.

[General Hearing & Water Hearing]

Land use capability class (LUC) means a classification of a parcel of *land*[^] in terms of five characteristics or attributes (rock, soil, *slope*^{*}, erosion, vegetation). The land use capability class can be derived either from the New Zealand Land Resource Inventory (NZLRI) or by a suitably qualified person specifically assessing and mapping the land use capability classes for a particular parcel of *land*[^]. Where the LUC is assessed by a suitably qualified person, that person may use the more favourable classification of the *land*[^] available applying the 3rd or 2nd edition of the Land Use Capability Survey Handbook.

[Water Hearing]

Lichenfield means, for the purposes of Schedule E, an area of vegetation in which the cover of lichens in the *canopy*^{*} is 20-100% and in which the lichen cover exceeds the cover of any other growth form or bare ground.

[Biodiversity and Heritage Hearing]

Light fuel oil means petroleum distillate fuel that is used in liquid fuel-burning equipment and does not require preheating.

[General Hearing]

Maintenance and repair, in relation to structures, means to keep or restore a structure to good condition and includes the reconstruction or alteration of part of a structure, provided that:

- (a) — the maintenance does not result in any increase in the base area of the structure
- (b) — the activity does not change the character, scale or intensity of any effects of the structure on the environment (except to reduce any adverse effects or increase any positive effects).

[General Hearing]

Maintenance means all actions which have the objective of retaining or restoring a *structure*[^], system, facility or installation in or to a state in which it can perform its required function, provided *maintenance*^{*} actions themselves do not give rise to any significant adverse *effects*[^], and where the character, intensity and scale of

the adverse effects[^] of the structure[^], system, facility or installation remain the same or similar. Maintenance* includes:

- (a) the reconstruction, alteration, removal or demolition of a structure[^] or part of a structure[^], system, facility or installation
- (b) trimming and removal of vegetation encroaching on a structure[^], system, facility or installation
- (c) the erection and removal of a temporary structure[^], system, facility or installation
- (d) the maintenance of access to a structure[^], system, facility or installation
- (e) the maintenance of a track*

[General Hearing & Land Hearing]

MALF means the one-day mean annual low flow calculated as the average of the lowest flow of the river[^] for each year (1 July to 30 June) of record.

[Water Hearing]

Mana means legitimacy to act in an authoritative and responsible capacity; prestige.

[Te Ao Māori Hearing]

~~**Market gardening** refers to properties greater than 4 ha mainly engaged in growing vegetables for human consumption (except dry field peas or beans), tree nuts, citrus fruit or other fruit.~~

[Water Hearing]

~~**Mauri** the essential essence of all being (see 4.1.3) means essential life force or principle; a metaphysical quality inherent in all things, both animate and inanimate.~~

[Te Ao Māori Hearing]

Mossfield means, for the purposes of Schedule E, an area of vegetation in which the cover of mosses in the canopy* is 20-100% and in which the moss cover exceeds the cover of any other growth form or bare ground.

[Biodiversity and Heritage Hearing]

Multifuel heater means a domestic heating appliance designed to burn more than one type of solid fuel.

[General Hearing]

Natural capital means the potential animal stocking rate that can be sustained by a legume-based pasture fixing nitrogen biologically, under optimum management and before the introduction of additional technologies. Using the “Attainable Physical Potential” in stock units/ha for each land unit listed in the extended legend of the LUC* worksheets as a proxy for the soil's natural capital, these stocking rates are transformed to pasture production and used in the OVERSEER[®] nutrient budget model to calculate nitrogen leaching losses under a pastoral use.

[Water Hearing]

New tracking means the formation of a new track* but excludes:

- (a) the installation of water table drains and cross-track* culverts for an existing track*
- (b) tracking undertaken to link existing tracks* or access ways provided the length of linkage tracking is less than 100 m.

[Land Hearing]

New Zealand Threat Classification System and Lists means the threat classification systems and threatened species described in any of the following documents:

- (a) de Lange, P.J., Norton, D.A., Heenan, P.B., Courtney, S.P., Molloy, B.P.J., Ogle, C.C., Rance, B.D., Johnson, P.N. & Hitchmough, R. 2004.

Threatened and uncommon plants of New Zealand. *New Zealand Journal of Botany* 42: 45-76.

- (b) Hitchmough, R., Bull, L., Cromarty, P. (comps) 2007. *New Zealand Threat Classification System Lists 2005*. Science and Technical Publishing No. 236. Department of Conservation, Wellington.
- (c) Molloy, J., Bell, B., Clout, M., de Lange, P., Gibbs, G., Given, D., Norton, D., Smith, N., & Stephens, T. 2002. *Classifying Species According to Threat of Extinction*. Biodiversity Recovery Unit, Department of Conservation, Wellington.
- (d) Townsend, A.J., de Lange, P.J., Duffy, C.A.J., Miskelly, C.M., Molloy, J., Norton, D.A. 2008. *New Zealand Threat Classification System manual*. Science & Technical Publishing. Department of Conservation. Wellington.

[Biodiversity and Heritage Hearing]

Noa means a state of normality or balance.

[Te Ao Māori Hearing]

Nutrient management plan means a plan prepared annually in accordance with the Code of Practice for Nutrient Management (NZ Fertiliser Manufacturers' Research Association 2007) which records (including copies of the OVERSEER[®] input and output files used to prepare the plan) and takes into account all sources of nutrients for *dairy farming** and identifies all relevant nutrient management practices and mitigations, and which is prepared by a person who has both a Certificate of Completion in Sustainable Nutrient Management in New Zealand Agriculture and a Certificate of Completion in Advanced Sustainable Nutrient Management from Massey University.

[Water Hearing]

Occasional means, for the purposes of Schedule E and this glossary, species that contribute more than *scattered** species, but less than species which are *common**, *abundant** or *dominant** and are encountered infrequently within the area of interest. This is a measure of the contribution to an area of interest (eg., the same habitat type or forest tier) of a species in relation to other species in the same area, and is not simply a frequency count as both biomass and density of a given species are considered.

[Biodiversity and Heritage Hearing]

Oil means petroleum in any form other than gas and includes crude oil, fuel oil sludge, oil refuse and refined oil products (eg., diesel fuel, kerosene, light fuel and motor gasoline).

[General Hearing & Water Hearing & Coast Hearing]

Open Outdoor burning means the burning of materials other than in purpose-built fuel-burning equipment designed to control the combustion process. **Open Outdoor** burning includes burning in drums and backyard rubbish incinerators, barbeques, hāngi, umu and outdoor fireplaces.

[General Hearing]

Operation means the use of any *structure*[^], system, facility or installation, including ancillary resource use.

[General Hearing]

Operational plan means, for the purposes of Chapter 12, an operational plan to minimise any potential adverse *effects*[^] on any *rare habitat**, *threatened habitat** or *at-risk habitat** resulting from *forestry**. The operational plan must be prepared in accordance with Part 3, take into account the Ecological values in Part 2 Section 5, and comply with the Best Environmental Management Practices in Part 1, of the New Zealand Environmental Code of Practice for Plantation Forestry Version 1.

[Land Hearing]

Persistent organic pollutants (POP) are organic substances that:

- (a) demonstrate toxic properties
- (b) resist degradation
- (c) bioaccumulate
- (d) can undergo a long-range transfer in air and *water*[^]
- (e) have a potential harmful *effect*[^] on health or the *environment*[^] including accumulating in living organisms and the food chain.

Examples include pesticides (such as DDT), industrial chemicals (such as polychlorinated biphenyls - PCBs) and unintentional by-products of industrial processes (such as dioxins and furans).

[General Hearing]

PM₁₀ means particulate matter that is:

- (a) less than 10 microns in aerodynamic diameter
- (b) measured in accordance with the United States Code of Federal Regulations, Title 40 – Protection of Environment, Volume 2, Part 50, Appendix J - Reference method for the determination of particulate matter as *PM₁₀*[^] in the atmosphere.

[General Hearing]

Podocarp means, for the purposes of Schedule E, southern hemisphere conifer species which have cones modified into fleshy berry-like structures but do not have flowers. Podocarp species include, but are not limited to, the totara species, matai, miro, kahikatea and rimu.

[Biodiversity and Heritage Hearing]

Poultry farm litter means solid poultry manure, bedding and composted material from poultry farm sheds.

[Water Hearing]

~~**Primary allocation take** means, in relation to the taking of water from a river, a take granted consent in accordance with Policies 6-2, 6-3 or 6-4, or any preceding primary water allocation regime.~~

[Water Hearing]

Production forestry means a *forest*^{*} of selected species of trees that are specifically planted, managed and harvested for the production of timber or other wood-based products, and includes understorey that has established beneath the *canopy*^{*} and areas that are demonstrated to be failed plantings from the previous rotation.

[Land Hearing]

~~**Property** refers means to one or more allotments as contained in a single certificate of title, and includes all adjacent land allotments[^] that is are in the same ownership. A legal *road*[^] is considered a property for the purposes of this Plan.~~

[Overall Plan Hearing]

Public land means *land*[^] to which the public has free access at the time that an activity is undertaken.

[General Hearing]

Public road means any formed legal *road*[^] that has open public access. It includes both the road area normally used by motor vehicles and cyclists along with adjacent footpaths and any berms and verges not in private ownership.

[General Hearing]

Public water supply means a reticulated publicly or privately owned drinking *water*[^] supply connecting at least two buildings on separate titles and serving at least 1,500 person days per year (ieq., 25 people for at least 60 days per year). Drinking *water*[^] is *water*[^] intended to be used for human consumption, food preparation, utensil washing, oral hygiene or personal hygiene.
[Water Hearing]

Rāhui means a social system of prohibition which recognises the tapu state of a resource, or is used as a ~~regulatory~~ voluntary device to ensure sensible management of a resource.
[Te Ao Māori Hearing]

Rare habitat means an area determined to be a rare habitat in accordance with Schedule E and, for the avoidance of doubt, excludes any area in Table E.2(b).
[Biodiversity and Heritage Hearing]

~~**Rare and threatened habitat** means an area of indigenous vegetation of a type identified in Table E1 as being rare or threatened respectively, and which meets the criteria described in Table E2 for determining whether an area of indigenous vegetation constitutes a habitat for the purposes of this Plan.~~
[Biodiversity and Heritage Hearing]

Reasonable mixing, in relation to the *discharge*[^] of *contaminants*[^] into surface ~~water~~ a *river*[^] or an *artificial watercourse*^{*}, means either:

- (a) a distance downstream of the *discharge*[^] that is the least of:
 - (i) the distance that equals seven times the width of the *river*[^] at the point of *discharge*[^] when the flow is at half the median flow, or
 - (ii) 200 metres from the point of *discharge*[^] or, for *discharges*[^] to *artificial watercourses*^{*} including farm drainage canals, 200 metres from the point of *discharge*[^] or the *property*^{*} boundary, whichever is the greater, or
 - (iii) the point at which mixing of the particular *contaminant*[^] concerned has occurred across the full width of the body of *water*[^] in the *river*[^], *artificial watercourse*^{*}, or
- (b) a distance for *reasonable mixing*^{*} determined as appropriate for a consent application where special circumstances apply.

[Water Hearing & Coast Hearing]

Repair (see “Maintenance and repair”)
[General Hearing & Land Hearing]

~~**Review date** (see “Common catchment expiry”)~~
[General Hearing]

Rohe means tribal district or tribal area.
[Te Ao Māori Hearing]

Rua kōiwi means a *site*^{*} ~~places~~ where human skeletal remains are traditionally placed, kept
[Te Ao Māori Hearing]

Rushland means, ~~refers to~~ for the purposes of Schedule E, an area of vegetation in which the cover of rushes in the *canopy*^{*} is 20-100% and in which the rush cover exceeds the cover of any other growth form or bare ground. ~~Included in the rush growth form are~~ Rush species include, but are not limited to, some species of *Juncus*, *Apodasmia*, and all species of *Sporadanthus* and *Empodisma*, but exclude tussock rushes. are excluded.
[Biodiversity and Heritage Hearing]

Scattered means, for the purposes of Schedule E and this glossary, species that contribute less than species which are *occasional**, *common**, *abundant** or *dominant** and can be expected to be encountered infrequently, and with a sparse distribution within the area of interest. This is a measure of the contribution to an area of interest (eg., the same habitat type or forest tier) of a species in relation to other species in the same area, and is not simply a frequency count as both biomass and density of a given species are considered.

[Biodiversity and Heritage Hearing]

Scrub means, for the purposes of Schedule E and this glossary, an area of ~~refers~~ woody vegetation in which the cover of *trees** and *shrubs** in the *canopy** is greater than 80% and in which the *shrub** cover exceeds that of *trees**. ~~Shrubs are woody plants less than 10 cm diameter at breast height.~~

[Biodiversity and Heritage Hearing]

Sea level rise is the net rise in sea level relative to the *land^* of the Region.

[General Hearing]

Seawater Management Zone (see *Water Management Zone**).

[Coast Hearing]

Sedgeland means, for the purposes of Schedule E, an area of vegetation in which the cover of sedges in the *canopy** is 20-100% and in which the sedge cover exceeds that of any other growth form or bare ground. Sedge species include, but are not limited to, many species of *Carex*, *Uncinia* and *Bolboschoenus*. Tussock-sedges and reed forming sedges are excluded from this definition of sedgeland.

[Biodiversity and Heritage Hearing]

Shrub means, for the purposes of Schedule E and this glossary, a woody plant less than 10 cm diameter at 1.4 m above ground.

[Biodiversity and Heritage Hearing]

Shrubland means, ~~refers to~~ for the purposes of Schedule E and this glossary, an area of woody vegetation in which the cover of *shrubs** in the *canopy** is 20-80% and in which the *shrub** cover exceeds the cover of any other growth form or bare ground.

[Biodiversity and Heritage Hearing]

Site includes, where in the context it is appropriate, an area or place or *river^* reach.

[Te Ao Māori Hearing & Biodiversity and Heritage Hearing & Water Hearing]

Slash means any discarded vegetation resulting from *forestry** pruning, thinning, clearing understorey, or harvesting.

[Land Hearing]

Slope is the angle from horizontal and is measured in degrees to an accuracy no less than that achieved by a hand-held inclinometer or abney level.

[Land Hearing]

Soil conditioner means a substance, excluding any substance or mix of substances derived from animal tissue, bone or blood whether processed or not, ~~that is added to a fertiliser, or~~ applied to *land^* by itself or with *fertiliser**, that alters the physical/structural characteristics of the soil by:

- (a) altering the air or *water^* retention capacity
- (b) encouraging flocculation
- (c) discouraging compacting
- (d) increasing the biological activity of soil or
- (e) facilitating air circulation and drainage-

but does not include *fertiliser**, *biosolids**, *animal effluent** or *poultry farm litter**.

[Water Hearing]

Solid fuel means a solid substance that releases useable energy when burnt (eg., wood and coal).
[General Hearing]

Solid waste means the combination of domestic, industrial and commercial waste^{*} and is also known as community waste^{*}.
[General Hearing]

Spray drift means the airborne movement of any sprayed *agricultural^{*} away from the as vapour, aerosol or droplets onto non-target areas.*
[General Hearing]

Supplementary water[^] allocation take means, in relation to the taking of water[^] from a river[^], a take granted consent in accordance with Policy 6-5 6-18 or any preceding supplementary water[^] allocation regime.
[Water Hearing]

Taonga means all things prized or treasured, both tangible and intangible₂ (see 4.1.3)
[Te Ao Māori Hearing]

~~**Threatened habitat** means a habitat that since human settlement has been reduced to 20% or less of the likely land area covered by the habitat prior to human settlement. Threatened habitats are identified in accordance with Schedule E.~~
[Biodiversity and Heritage Hearing]

Threatened habitat means an area determined to be a threatened habitat in accordance with Schedule E and, for the avoidance of doubt, excludes any area in Table E.2(b).
[Biodiversity and Heritage Hearing]

Track means a formed route for the movement of people, animals or vehicles and includes a road[^] but excludes any route formed solely by the walking of people or animals.
[Land Hearing]

Treated timber means timber treated with preservatives, including boron compounds (except 2-thiocyanomethylthiobenzothiazole (TCMTB) compounds), copper ~~chrome~~ chromium arsenic (CCA), or creosote, but not including timber treated only with anti-sapstain compounds.
[General Hearing]

Tree means, for the purposes of Schedule E and this glossary, a woody plant with a diameter of 10 cm or greater at 1.4 m above ground and includes a tree fern with a diameter of 10 cm or greater at 1.4 m above ground.
[Biodiversity and Heritage Hearing]

Treeland means, for the purposes of Schedule E and this glossary, an area of ~~refers to~~ vegetation in which the cover of trees^{*} in the canopy^{*} is 20-80%, with tree^{*} cover exceeding the cover of any other growth form, and in which the trees^{*} form a discontinuous^{*} upper canopy above either a lower canopy of predominantly non-woody vegetation or bare ground. *Treeland^{*} excludes orchard trees.* (Note: *An area of* vegetation consisting of trees^{*} above shrubs^{*} is classified as either forest^{*} or scrub^{*} depending on the proportion of trees^{*} and shrubs^{*} in the canopy^{*}).
[Biodiversity and Heritage Hearing]

Tussockland ~~refers to~~ means, for the purposes of Schedule E and this glossary, an area of vegetation in which the cover of tussocks in the canopy^{*} is 20-100% and in which the tussock cover exceeds the cover of any other growth form or bare ground. Tussocks include all grasses, sedges, rushes and other herbaceous

plants with linear leaves (or linear non-woody stems) that are densely clumped and are greater than 10 cm in height. ~~Examples of the growth form occur in all species of~~ This includes, but is not limited to, all species of *Cortaderia*, *Gahnia* and *Phormium* (see also *Flaxland**) and in some species of *Chinochloa*, *Poa*, *Festuca*, *Rytidosperma*, *Cyperus*, *Carex*, *Uncinia*, *Juncus*, *Astelia*, *Aciphylla* and *Celmisia*.
[Biodiversity and Heritage Hearing]

Untreated wood ~~refers to~~ means any wood material or product, including sawdust, which is not treated with copper, ~~chrome~~ chromium or arsenic (CCA) (~~CCA-treated~~ (or “tanalised”), or with any organochlorine preservative.
[General Hearing]

Upgrade means bringing a *structure*[^], system, facility or installation up to date or to improve its functional characteristics, provided the upgrading itself does not give rise to any significant adverse *effects*[^], and the character, intensity and scale of any adverse *effects*[^] of the upgraded *structure*[^], system, facility or installation remain the same or similar.
[General Hearing & Land Hearing]

Untreated human effluent means sewage which:

- (a) has undergone no treatment; or
- (b) has only undergone changes to its physical properties as a result of:
 - (i) screening, including milliscreening;
 - (ii) comminution;
 - (iii) grit removal;
 - (iv) settlement; or
 - (v) any combination of the above.

[Water Hearing]

~~**Vegetation clearance** means the cutting, crushing, spraying, burning or other means of removal of vegetation, including indigenous and exotic plants. It does not include:~~

- ~~(a) grazing~~
- ~~(b) pruning or thinning operations associated with production forestry~~
- ~~(c) the control of pest plants as defined in the Regional Pest Plant Management Strategy.~~

[Land Hearing]

Vegetation clearance means the cutting, crushing, spraying, burning, or other means of removal or destruction of vegetation, including indigenous and exotic plants (including trees). **Land disturbance** means the disturbance of the *land*[^] surface by any means including by blading, blasting, contouring, cutting of batters, filling, excavating, ripping, root raking, recontouring, or moving or removing soil or earth. *Vegetation clearance** and *land disturbance** excludes:

- (a) *cultivation**
- (b) *forestry**
- (c) clearance or disturbance by animals including grazing
- (d) activities undertaken for the sole purpose of establishing a fence line and not located within a *rare habitat**, *threatened habitat** or *at-risk habitat**
- (e) the *maintenance** or *upgrade** of existing *tracks**, *structures*[^] (including fences), or *infrastructure*[^]
- (f) maintaining shelterbelts (including cutting of shelterbelt roots)
- (g) activities undertaken for the purpose of protecting, maintaining or enhancing areas of *rare habitat**, *threatened habitat** or *at-risk habitat**

- (h) clearance of vegetation that is fallen or dead and not located within a *rare habitat**, *threatened habitat** or *at-risk habitat** that is *forest** or *scrub** in Schedule E
- (i) activities undertaken within the boundaries of any area of *land*[^] held or managed under the Conservation Act 1987 or any other Act specified in Schedule 1 to that Act (other than *land*[^] held for administrative purposes) that are consistent with a conservation management strategy, conservation management plan, or management plan established under the Conservation Act 1987 or any other Act specified in Schedule 1 to that Act
- (j) activities undertaken within the boundaries of the New Zealand Defence Force Waiouru Military Training Area, provided that those activities are undertaken in accordance with a management plan that has the same or similar outcome as an *Erosion and Sediment Control Plan**
- (k) clearance of thistles, ring ferns, carpet ferns, rushes, ink weed, briar rose, barberry, introduced pampas grass (other than toetoe), mingimingi, wilding pinus species, Japanese poplar, Japanese walnut, and pest plants referred to in the Regional Council's Regional Pest Plant Management Strategy.

[Land Hearing & Biodiversity and Heritage Hearing]

Wāhi tapu means a *site** sacred to Māori in the traditional, spiritual, religious, ritual, or mythological sense and includes *rua kōiwi**.

[Te Ao Māori Hearing]

Wāhi tūpuna means a *sites** of cultural and historical significance to *hapū** and or *iwi** – though not necessarily in a state of tapu. (see 4.1.3)

[Te Ao Māori Hearing]

Waste means substances or objects that are disposed of or intended to be disposed of any material, solid, liquid or gas that is unwanted or unvalued and discarded or discharged.

[General Hearing]

Wet abrasive blasting ~~refers to~~ means *abrasive blasting** when *water*[^] or a mixture of abrasive and *water*[^] is added to the airflow carrying the abrasive material prior to the blasting nozzle exit, or when the blasting medium is predominantly a pressurised slurry.

[General Hearing]

Water Management Zone means a Water Management Zone as described in Schedule D ~~AA~~ or the Seawater Management Zone as described in Schedule H.

[Overall Plan Hearing & Water Hearing & Coast Hearing]

Water Management Sub-zone or Sub-zone (WMSZ) means a Water Management Sub-zone as described in Schedules AA or H.

[Overall Plan Hearing & Water Hearing & Coast Hearing]

Whānau means family or extended family.

[Te Ao Māori Hearing]

Whenua means land, the land.

[Te Ao Māori Hearing]

Whitebait means the assemblage of juvenile indigenous fish which migrate into *river*[^] systems from the sea, generally during spring. This assemblage can include juvenile inanga, shortjaw kokopu, giant kokopu, banded kokopu, koaro and occasionally common smelt.

[Water Hearing]

Woodburner means a domestic heating appliance that burns wood, but does not include:

- (a) an open fire
- (b) a multi-fuel heater, a pellet heater, or a coal burning heater
- (c) a stove that is designed and used for cooking and is heated by burning wood.

[General Hearing]

~~**Whole Farm Business Plan** refers to a work plan or farm plan that has been lodged with Horizons Regional Council and must contain information on:~~

- ~~(a) any proposed future planting for erosion control~~
- ~~(b) any proposed future tracking~~
- ~~(c) any proposed future vegetation clearance~~
- ~~(d) a programme or work plan for implementing required changes, and~~
- ~~(e) monitoring and reporting requirements.~~

[Land Hearing]

Woody vegetation means perennial vegetation that has hard lignified tissues.

[Land Hearing]
