1. Biodiversity General

Submitter	No	Point	Decision sought	Decision
GORDON GEORGE KUGGELEIJN	300	6	The way this one plan is set out the native fauna could be regarded as "pests" as their colonizing my forest could mean that NO harvesting of the crop may be possible in future. I hope this gets changed.	Accept in part
	X501	80	ERNSLAW ONE LTD - Support	Accept in part
GENESIS POWER LTD	268	51	Amend all references in the proposed plan from "rare and threatened habitats" to naturally occurring rare and threatened habitats.	Reject
	X 492	23	MINISTER OF CONSERVATION - Oppose	Accept
	X 511	1	TRUST POWER LIMITED - Support	Reject
	X 519	14	MIGHTY RIVER POWER - Support	Reject
P F OLSEN LIMITED	305	1	In general terms Olsen's supports much of the thrust and structure of the One Plan, note however that there are issues in relation to the how the concepts of biodiversity are to be managed; represent a fatal flaw that unless changed will undo and probably regress all the encouragement of forestry that Council has stated it is seeking to achieve to help address the big 4 issues.	Accept in part
	X 501	81	ERNSLAW ONE LTD - Support	Accept in part
	X 520	15	NZ FOREST MANAGERS LTD - Support	Accept in part
LAURA M SIVYER	388	4	No specific decision requested, however submitter notes: Give the rivers back their wetlands for a start. Nature supplied the flax swamps for the excess waters. Man in his greed has drained them. Why penalize high country landowners for the actions of the landowners along the river banks?	Accept in part
LAURA M SIVYER	388	5	No specific decision requested, however submitter notes: Native Flora and Fauna - Why penalize Ruapehu?	Reject
LAURA M SIVYER	388	6	No specific decision requested, however submitter notes: the shortage of bird life is evident. Horizons with the AHB and DoC are the people responsible for the demise of a lot of our native fauna. The 1080 wanton	Reject

Submitter	No	Point	Decision sought	Decision
HOANE TITARI JOHN WI	2	18	poisoning of land. That education programmes become available for delivery for hapu, marae, kurakaupapa and iwi organisations.	Accept
JOHN GRAHAM DOBSON	34	1a	Submitter does not request a decision, however they do note: - There must be more tighter control on animal birds and fish that have no real place coming into this country if its not to late - Some of the laws you intend pursuing in some cases may be necessary but as in most cases would be a waste of time and cost an other cost that is driving farming into the ground. - An over all law that governs all farmers that don't have a farm plan sounds ridicules. - Farmers just want to get on with farming they don't want all this pleas sir stuff. Individual or grouped farm management plans is a must.	Accept in part
MICHAEL STANWICK	44	5	In the context of the Native Biodiversity issues recognized by Horizons, I also propose a controlled curtailment of sustainable forest harvesting from native forest stands. Although classed as sustainable, I would argue that the presence of the harvesting process increases the pressure on and undermines the sustainability, of native forest stands as autonomous ecosystems and this further adds to the decrease in native fauna biodiversity that Horizons has recognised in its State of the Environment Report.	Accept in part
ALEXANDER BRYAN WILFRIED JAMES	45	17	Horizons should investigate the feasibility of restoring some low lying, flood prone tracts of farmland that were created by swamp drainage back into wetlands. Such a project should involve numerous other organisations (e.g. NIWA, Fish and Game, universities, Forest and Bird) and would show the long-term vision I hope Horizons has.	Reject
RUAPEHU DISTRICT COUNCIL	151	106	(b) Regional Council could provide guidance and maps to develop geographical areas and corridors of habitats across the country.	Reject
	X 481	171	PALMERSTON NORTH CITY COUNCIL - Support	Reject
RUAPEHU DISTRICT COUNCIL	151	107	(c) Not limit the planning to species and prominently to water.	Accept in part

Submitter	No	Point	Decision sought	Decision
	X 481	172	PALMERSTON NORTH CITY COUNCIL - Support	Accept in part
TOM & LINDA SHANNON	163	1	Relief sought: i) Amend objectives, policies and methods to explicitly provide for a more cooperative strategies approach to the protection of the Region's Indigenous Biological Diversity, based on a region-wide assessment of indigenous biological diversity; ii) Any similar amendments to like effect; iii) Any consequential amendments.	Accept in part
SUSTAINABLE WHANGANUI	176	19	We seek the addition of the term "indigenous dominance" in any reforestation programmes.	Reject
JOHANNES ALTENBURG	222	3	No specific decision requested but submits the following: Control/Destroy Domestic and Feral cats as they are a threat to native birds, Lizards/skinks.	Reject
JOHN BATLEY	355	8	Inequalities in funding are a concern. Those properties involved in the SLUI Project are funded by taxpayer and ratepayer assistance whereas those who apply for consents directly pay all the costs. This will mean another increase in rates already running at extremely high levels. Parallel circumstances occur at present where many properties not receiving pest control by Horizons, fund properties that are.	Reject
HORTICULTURE NEW ZEALAND	357	87	Decision Sought: Amend Chapter 7 to identify and clearly map specific areas of indigenous vegetation and significant habitats of indigenous fauna that require protection and include objectives policies and methods for these specific areas.	Reject
MIGHTY RIVER POWER	359	73	- Delete the plan provisions relating to biodiversity and consider a variation to the Plan which bases the identification and management of biodiversity values on an ecological district or LENZ approach; or - Exclude infrastructure and energy activities from this chapter and add a cross reference to Chapter 3 and Policy 3-3 on page 3-4 in particular subject to the Mighty River Power submissions on Chapter 3 being accepted; or - Amend the objectives and policies as detailed below. NGA PAE O RANGITIKEI	427	70	We are committed to ensuring the protection and replenishment of native flora and fauna within our rohe and we endorse Council's focus [shown in paragraph 7.1.1]	Accept
ROYAL FOREST & BIRD PROTECTION SOCIETY OF NEW ZEALAND	460	60	It should be explicitly stated that areas of significance or outstanding value do not exist in isolation, but within a wider ecological context. The scope of the chapter needs to encompass landscape scale ecological values eg small or degraded bush fragments may not be significant in isolation, but collectively they play a significant ecological role. NEW ZEALAND HISTORIC PLACES TRUST - CENTRAL REGION	353	14	The NZHPT considers that Horizons Regional Council needs to prepare a separate Regional Plan for Manawatu/Wanganui, rather than including it as a component part of the Proposed One Plan. The NZHPT would be comfortable with one inclusive Regional Plan, covering air, land and water. There should, however, be a separate Regional Coastal Plan. The NZHPT acknowledges that the present Regional Plan part of the Proposed One Plan does include some useful material, which can form the basis of the separate Regional Plan document.	Reject

NEW ZEALAND HISTORIC PLACES TRUST - CENTRAL REGION	353	28	The NZHPT requests that Council better provides for the identification and protection of historic heritage in the proposed Regional Plan. NEW ZEALAND ARCHAEOLOGICAL ASSOCIATION INC	226	6	No specific decision requested but NZAA notes that natural values are given considerable more emphasis in this chapter than historic heritage, for example there are no methods and anticipated environmental outcomes for historic heritage. This is in contrast to the number of detailed biodiversity and natural landscape objectives, policies and methods. Objectives and policies within this chapter need to support the integrated management of historic heritage within the region and its protection from inappropriate subdivision, use-and development. One method to assist in the protection of historic heritage could be for the regional council to support the identification of all historic heritage within the district and listing in district plans where appropriate.
