Native Plants for Riparian Margins

Narrow leaved ground cover

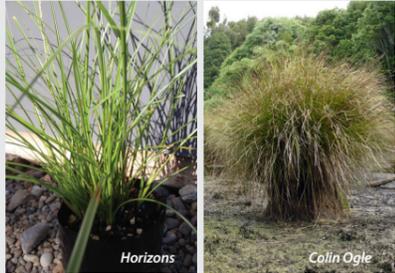

Flax, Harakeke
Phormium tenax

Mtn flax, Wharariki
Phormium cookianum

Purei
Carex secta

Swamp Sedge
Carex virgata

Toetoe
Cortaderia fulvida

Shrubs

Karamu
Coprosma robusta

Koromiko
Hebe stricta

Manuka
Leptospermum scoparium

Mingimingi
Coprosma propinqua

North-Western Ecological Area

Below are native plants suitable for riparian margins in the North Western Ecological Area. Included at the back of the information sheet is a plant list with each species environmental tolerances and habitat suitability.

Unless otherwise indicated, all photos have been provided by Taranaki Regional Council

Trees

Cabbage Tree
Cordyline australis

Five-finger
Pseudopanax arboreus

Kahikatea
Dacrycarpus dacrydioides

Kohuhu
Pittosporum tenuifolium

Kowhai
Sophora microphylla

Trees

Lemonwood
Pittosporum eugenioides

Long-leaved Lacebark
Hoheria sexstylosa

Ribbonwood
Plagianthus regius

Totara
Podocarpus totara
